INTRODUCTION

This is a report of State activity in the Supplemental Nutrition Assistance Program (SNAP). The data contained herein is State reported data or data calculated from State reported data.

The tables are based on data for all of Fiscal Year 2011. Fiscal Year 2011 data in this report reflects National Data Bank totals as of August 2012.

As may be expected in a report of this size and taken from multiple data sources, there are some apparent discrepancies in reported data. Most discrepancies are due to compiling the data at different times and from different data sources within the State. In some cases, the data may still be revised after the publication of this report.

To assist the reader, end notes are provided at the conclusion of the report identifying the data sources and other pertinent information for each individual section. All data, with two exceptions, was compiled from the National Data Bank, the official repository of SNAP data. The report, itself, was prepared by the Program Accountability and Administration Division. Some of the data highlighted in this report includes:

- Recipient Claims Table: Reports on the methods used by State agencies to collect claims against recipient households. Some of the data included in the recipient claims table is derived from administrative offset weekly

statistical reports prepared by the U. S. Department of the Treasury.

- Electronic Disqualified Recipient System (eDRS): Summary data from this Federal database that tracks and shares disqualification data among State agencies.
- Ranking Section: Tables that rank participation and issuance data, from high to low, for each State.

This entire report is available on the SNAP web page at:

www.fns.usda.gov/pd/snapmain.htm.

If there are any questions concerning the data in this publication, contact the State Administration Branch at:

State Participation And Issuance

NOTABLE TRENDS

PARTICIPATION AND ISSUANCE

In Fiscal Year (FY) 2011 State agencies issued approximately \$71.8 billion in Supplemental Nutrition Assistance Program benefits, an increase of 10.98% from \$64.7 billion in FY 2010. These benefits were issued to a monthly average 21.1 million households or 44.7 million people participating in the Program, an increase of 10.92% from 40.3 million participants the previous year. The average monthly benefit was \$133.85 per person or \$284.00 per household. The Food and Nutrition Act of 2008 requires that Electronic Benefit Transfer (EBT) cards be the sole method of benefit delivery. EBT systems issue and redeem benefits using cards, electronic funds transfer networks, and point-of-sale technology in authorized retail food stores. The Federal Government pays 100 percent of the benefits issued.

CASH-OUT

Cash-out projects are limited to certain pilot projects authorized in the Food and Nutrition Act that have either continued to operate since 1981 or were approved prior to August 1996. While technically not considered part of the EBT system for issuance, redemption, and reporting purposes, States with FNS-approved cash-out issuance systems (for wage supplementation, welfare reform, or other approved demonstration projects) may issue cash-out benefits electronically via

either direct deposit or debit cards, which can be used at automatic teller machines to draw the funds. In FY 2011, \$114.8 million in cash-out benefits were issued to 75,150 households in 5 States.

DEMONSTRATION PROJECT

In FY 2011, Minnesota operated an approved Group Residential Housing project that provided \$16.9 million in SNAP benefits to be used for food purchase by 11,306 residents.

II.

Administrative Costs

NOTABLE TRENDS

ADMINISTRATIVE COSTS

State agency administrative costs are affected by a number of factors including participation levels, the number and salary level of State staff, inflation, the location of State agency offices, type of issuance system, worker training costs, degree of automation, level of fraud control activity, etc. The Food and Nutrition Service (FNS) pays approximately 50 percent of State agency administrative costs to operate the program. Total State agency administrative costs prior to Federal cost sharing were \$6.83 billion, down 1.42 percent from \$6.93 billion the previous year. In FY 2011, the Federal share of administrative costs decreased 2.41 percent to just over \$3.39 billion. The Federal share of administrative cost per case (i.e., per household) per month decreased by 13.7 percent to \$13.44 in FY2011.

The Federal share of certification costs increased 11.91 percent in FY 2011 from \$1.83 billion in FY 2010 to \$2.05 billion. The Federal share of the certification cost per case (i.e., per household) per month decreased from \$8.20 per case per month to \$8.11 per case per month.

III.
Fair
Hearings

NOTABLE TRENDS

FAIR HEARINGS

SNAP regulations provide recourse to households that are denied benefits or have their allotment reduced, suspended or cancelled as a result of an adverse decision by the State agency. This recourse is called the fair hearing process. The number of fair hearings conducted by States is reported annually on Form FNS-366B, the Program Activity Statement.

In FY 2011, the number of fair hearings increased by 21.53 percent to 61,532. The caseworker's decision was upheld in 65.59 percent of fair hearings, compared to 68.29 percent in FY 2010.

**Fraud Investigations,
Prosecutions,
And Administrative
Disqualification
Hearings**

NOTABLE TRENDS

FRAUD CONTROL

In FY 2011, State fraud investigations increased by 1.71 percent to 797,828 compared to 784,430 in FY 2010.

Fraud investigations are broken into two categories: pre-certification investigations and post-certification investigations. Pre-certification investigations are cases referred for investigation and completed prior to certification. Investigators assist in front-end detection by acting on referrals in suspicious cases and probing more deeply into a client's circumstances. Positive pre-certification investigations prevent fraud at intake and before a dollar loss can occur. They may also result in administrative hearings or prosecutions that lead to disqualification but no claim will be established.

Post-certification investigations are investigations completed after certification. Positive post-certification investigations may result in an administrative disqualification hearing or prosecution, the disqualification of the individual who has committed an intentional program violation, and the establishment of a claim to recover the overissuance or amount trafficked.

Disqualification hearing activity increased in FY 2011. In FY 2011, the number of recipients disqualified from the SNAP for an intentional program violation increased to 46,369, a 4.24 increase from the previous year.

On the Federal level, FNS operates the electronic Disqualified Recipient System (eDRS). eDRS is a centralized national database utilizing data submitted each month by all 50 States, the District of Columbia, Guam, and the Virgin Islands, that tracks individuals disqualified from participation in SNAP for intentional program violations. States use eDRS to identify applicants that may be currently disqualified from SNAP participation and therefore, ineligible to receive benefits. States also use eDRS to determine the correct penalty to assign when disqualifying an individual. Disqualification penalties vary by the type and extent of the offense. Because an individual may be permanently disqualified, these records are held indefinitely. As of September 2011, this Federal database had records on 1,230,227 recipients and 1,317,774 disqualifications.

V.

Recipient Claims

NOTABLE TRENDS

RECIPIENT CLAIM COLLECTIONS

Recipient claims are established against households that receive more SNAP benefits than it is entitled to receive or households that have trafficked benefits (exchanged for cash). Claims fall in three categories: intentional program violation (fraud claims), inadvertent household error, or agency error. State agencies are entitled to retain 35 percent of the amount they collect on fraud claims and certain inadvertent household error claims; and retain 20 percent of the amount they collect on the remaining inadvertent household error claims.

In FY 2011, State agencies established \$520.9 million in new claims against households and collected \$313.7 million. The average claim established was for \$564. Collections increased 9.19 percent in FY 2011. Collections via recoupment, whereby the State agency reduces a portion of the households benefit allotment to pay an outstanding claim, also increased in FY 2011.

During FY 2011, \$105.8 million of the total State agency collections reported above was collected by the Federal Government through the Treasury Offset Program (TOP). As a participating partner in this program, State agencies notify the household and then send the delinquent claims through FNS to the US Department of Treasury for possible collection under this program.

This Federal program offsets amounts from any eligible Federal payment otherwise due a household and uses those funds to pay outstanding claims. The collections are made by Treasury on behalf of SNAP. In FY 2011, all State agencies participated in TOP.

1/ SOME STATES ESTABLISH POTENTIAL FRAUD CLAIMS AS HOUSEHOLD ERROR CLAIMS INITIALLY AND THEN TRANSFER THE CLAIM FROM INADVERTENT HOUSEHOLD ERROR TO FRAUD CLAIM AFTER THE PROSECUTION OR FRAUD HEARING. THUS, THE SUM OF THE FRAUD INVOLVED FROM PROSECUTION AND FRAUD HEARINGS IS A BETTER MEASURE OF THE AMOUNT OF FRAUD CLAIMS ULTIMATELY ESTABLISHED.

STATE PARTICIPATION AND ISSUANCE

States report participation data on the FNS-388 reports and issuance data on the FNS-46. Average monthly participation and household participation in this report may not add for the national total due to rounding. The total participation data in this report is the average monthly participation from all States for the fiscal year (12-month average).

ADMINISTRATIVE COSTS

Administrative Cost data cited in this section is derived from the SF-269.

FAIR HEARINGS

Fair Hearings data cited in this section is derived from the FNS-366B.

FRAUD INVESTIGATIONS, PROSECUTIONS, AND ADMINISTRATIVE DISQUALIFICATION HEARINGS

Fraud Investigations, Prosecutions, and Administrative Disqualification Hearings data cited in this section is derived from the FNS-366B.

DISQUALIFIED RECIPIENTS – FEDERAL DATABASE STATUS

The data cited in this section is derived from the electronic Disqualified Recipient System (eDRS) - a Federal system of records that is used to identify individuals currently disqualified from receiving SNAP and individuals with a prior disqualification record for penalty determination purposes. eDRS includes both current year and historical disqualifications.

RECIPIENT CLAIMS

Claims data cited in this section is derived from the FNS-209; Federal debt collection data is derived from the FNS Federal Debt Collection Biweekly Collection Report. All recoupment amounts are included in collections data.

Data on new claims established is included in Tables 22, 23 and 24. When referring to data in these tables it should be noted that some States show no or low fraud claims newly established because they establish such claims as inadvertent household error and subsequently transfer the claim to fraud after the court or hearing officer's determination. Therefore, we recommend that the data in Tables 16, 18, and 20 (amount of fraud determined from prosecutions and administrative disqualification hearings and number of fraud determinations) be used as a better measure of the amount of fraud claims ultimately established. Data

END NOTES

included in Table 27 (Recipient Claims Collected) includes total claims collected through various means including Federal Debt.

Calculations for other means of collection employed by State agencies include all State methods except for recoupment and Federal collections from the Treasury Offset Program minus all refunds and negative adjustments.

Calculations for Federal Debt Collection amounts include Treasury Offset Program collections but not voluntary payments and offset fees paid by the client. Totals represented are for calendar year 2011 – however 98% of Federal collections occurred during FY 2011. Some offsets are subject to refunds.

RANKINGS OF PARTICIPATION AND ISSUANCE

Please refer to the explanations above for the sources of various data cited in this section. Note that totals for persons and households may not add due to rounding.

COMPARISON TO PRIOR YEARS

Please refer to the explanations above for the sources of various data cited in this section.
