Entitlement Foods (dollars in thousands)	\$257,944	\$225,880	\$247,028
Bonus Foods (dollars in thousands)	\$74	\$0	\$0
TEFAP (dollars in thousands)	\$165,545	\$116,549	\$113,900

\*States tend to distribute multiple months of P-EBT benefits in a single issuance. Benefits distributed in June, for example, may represent the value of P-EBT benefits for participants' virtual school days in the months of March through May. Because states distribute multiple months of benefits in a single issuance, participant counts must be interpreted with caution. Participants who receive a combined P-EBT benefit in June for the months of March through May will appear in the participant count for June only. A household or person who receives a combined benefit for March and April in June, and a second combined benefit for May and June in July will appear in the June and July participant counts. As result, the number of P-EBT beneficiaries is much greater than any single monthly count, but summing the participant counts across months will overstate the number of beneficiaries.
