ALL DATA SUBJECT TO REVISION			
1. States tend to distribute multiple months of P-EBT benefits in a single issuance. Benefits distributed in June, for example, may represent the value of P-EBT benefits for participants' virtual school days in the months of March through May.			
2. Because states distribute multiple months of benefits in a single issuance, participant counts must be interpreted with caution. Participants who receive a combined P-EBT benefit in June for the months of March through May will appear in the participant count for June only. A household or person who receives a combined benefit for March and April in June, and a second combined benefit for May and June in July will appear in the June and July participant counts. As result, the number of P-EBT beneficiaries is much greater than any single monthly count, but summing the participant counts across months will overstate the number of beneficiaries.			
3. States issue P-EBT benefits to individual children in cases when they are unable to group children into household units. This is sometimes an issue where P-EBT beneficiaries are not SNAP recipients. Because these children are counted as separate households, the household count in this table overstates the number of unique household beneficiaries.

1. The FNS interim final rule "Establishing the Summer EBT Program and Rural Non-Congregate Option in the Summer Meal Programs" published in December 2023 amended SFSP, NSLP and SBP regulations to allow non-congregate meal service through the SFSP and NSLP SSO in rural areas without access to congregate meal sites. The FNS-10 (Report of School Program Operations) report was revised and implemented beginning in FY 2025 to capture data related to SSO meals and meal service options separately from NSLP/SBP meals.
