| 1. States tend to distribute multiple months of P-EBT benefits in a single issuance. Benefits distributed in June, for example, may represent the value of P-EBT benefits for participants' virtual school days in the months of March through May.                                                                                                                                                                                                                                                                                                                                                                                                                           |             |           |                    |
| 2. Because states distribute multiple months of benefits in a single issuance, participant counts must be interpreted with caution. Participants who receive a combined P-EBT benefit in June for the months of March through May will appear in the participant count for June only. A household or person who receives a combined benefit for March and April in June, and a second combined benefit for May and June in July will appear in the June and July participant counts. As result, the number of P-EBT beneficiaries is much greater than any single monthly count, but summing the participant counts across months will overstate the number of beneficiaries. |             |           |                    |
| 3. States issue P-EBT benefits to individual children in cases when they are unable to group children into household units. This is sometimes an issue where P-EBT beneficiaries are not SNAP recipients. Because these children are counted as separate households, the household count in this table overstates the number of unique household beneficiaries.                                                                                                                                                                                                                                                                                                               |             |           |                    |

1. Totals are averaged; fiscal year computations are based on October through May plus September. Subtotals may not add to total due to rounding calculations.
2. The FNS-10 (Report of School Program Operations) report was revised and implemented beginning in FY 2025 to capture data related to SSO meals and meal service options separately from NSLP/SBP meals.
3. Includes SSO average daily participation

1. The FNS-10 (Report of School Program Operations) report was revised and implemented beginning in FY 2025 to capture data related to SSO meals and meal service options separately from NSLP/SBP meals.

2. Totals are averaged; fiscal year computations are based on October thru May plus September. Includes average daily SSO breakfasts. Average daily SSO meal reporting requirement for non-congregate meal service will not be fully implemented by all states until FY 2026.

3. Sum excludes July and August.
