

FOOD & NUTRITION SERVICE
STANDARD TERMS AND CONDITIONS
TEMPLATE

All grant awards, as well as amendments to existing USDA Food and Nutrition grants, are subject to the following Standard Terms and Conditions.

The USDA Food and Nutrition Service (hereinafter referred to as “Agency”) awards funding to the Grantee (hereinafter referred to as “Recipient”). By acceptance of this award, the Recipient agrees to comply with the terms and conditions of the award listed below.

The Recipient will conduct the project as described in its submission of the Standard Form 424, 424A, proposal, and budget narrative, including any subsequent revisions, amendments and/or clarifications.

Important information regarding the award, including the Agency contact and CFDA number, is contained on the Grant/Cooperative Agreement Form FNS-529.

STANDARD TERMS OF THE AWARD

- 1. Funding:** The Agency will provide funds to the Recipient in the amount stated on the Grant/Cooperative Agreement Form FNS-529, Box 11, and as specified in the grant award letter, for use in accordance with this agreement. Funds will be provided at the Agency’s discretion through the Letter of Credit, Reimbursement, or in advance of need, upon receipt of a properly executed Grant/Cooperative Agreement Form FNS-529.
- 2. Performance Period:** The period of performance for this project is listed on the Grant/Cooperative Agreement Form FNS-529, Box 20 and 21. The Recipient may only incur allowable costs during the period of performance. Any pre-award costs incurred prior to the period of performance must be approved in writing by the Agency. To maintain effective internal control over funds, the Recipient shall only withdraw funds for expenses incurred or anticipated within the period of performance. Should the Recipient need to withdraw funds earlier in anticipation of costs incurred in the first month of the period of performance they may do so as long as the draw is timely, i.e., minimal time elapses between the draw and expenditure.

All funds must be obligated and all program activities under the agreement (other than activities related to the close out of the agreement) must be completed by the Expiration Date listed on the Grant/Cooperative Agreement Form FNS-529, Box 21. The closeout of the agreement must occur within 120 days of the expiration date, and all obligations incurred under the agreement must be liquidated by this date.

- 3. Amendments/Revisions and Budget Changes:** The Recipient may request an amendment or revision to the agreement, including the proposal, in writing at any time during the duration of the agreement. Prior approval is required for any revision of the scope or objectives of the project (regardless of whether there is an associated budget revision); changes in key personnel, such as the project director; disengagement from the project for more than three months (or a 25 percent reduction in time devoted to the project) by the project director; transfer of funds budgeted for participant support costs; the subawarding, transferring or contracting of any work (unless approved in the submitted application package); or changes to budget line cost/expenditure. All amendments or revision must be submitted in writing to the Agency Contact listed on the Grant/Cooperative Agreement Form FNS-529, box 7.

The Recipient may transfer costs within the approved direct cost categories to meet unanticipated requirements. However, as required in [2 CFR 200.308\(f\)](#) the Agency requires that prior approval be obtained for any budget revision that involves a shift of funds among line-items in excess of 10% of the total approved grant budget. Such revisions must be submitted in writing with a revised budget in the same format as the original budget. All other requirements within 2 CFR 200.308 shall also apply.

The Recipient must include justification with any proposed amendment/revision and budget changes. All requests for changes must be made at least 10 calendar days before the end of the grant period. Any request received after this time will not be considered.

- 4. Non-agreement funds:** The Recipient may seek and apply for funds from other sources in support of the mission of the agreement.

REPORTING

- 5. Quarterly and Final Progress Reports:** Unless otherwise approved, the OMB-approved FNS-908 Performance Progress reports must be received by Agency within 30 days following the end of each Federal fiscal quarter period. These reports should cover the preceding quarterly period of activity. A final report identifying the accomplishments and results of the project is due no later than 120 calendar days after the period of performance end date.

FOOD & NUTRITION SERVICE
STANDARD TERMS AND CONDITIONS
TEMPLATE

As aforementioned, unless otherwise approved, the Recipient must use the standardized FNS-908 Performance Progress Report attached to these Terms and Conditions for all Progress Reports. FNS-908 Performance Progress Report Program Activities should include objectives, activities, and indicators which are specific to this grant. Please be sure to use the correct FNS-908 and associated Program Activities when reporting program performance for this grant. When reporting program performance, the Recipient should relate financial data and accomplishments to performance goals and objectives of the award. When completing the FNS-908 Performance Progress Report, the Recipient will be giving consideration to the following information:

- Goals/objectives and the activities performed in support of these goals/objectives;
- A narrative description of project progress comparing actual accomplishments to the objectives, tasks completed, and roadblocks or problems;
- Reasons why goals and objectives were not met, if appropriate, particularly at predefined go/no-go decision points, and justification of decision to proceed;
- Budget impact and/or cost information to demonstrate cost effective practices associated within the reporting period;
- Key activities planned for the next report period or a final accomplishment statement if the project has been completed;
- Findings or activities which may require changes in schedules, accomplishments, or costs, particularly those changes which may impact the Recipient's ability to utilize grant funds within the specified time period;
- Other pertinent information including, when appropriate, analysis and explanation of cost overruns; and
- Any unique aspects that you would like to share.

The Recipient must immediately report any problems, delays, or adverse conditions that impair the Recipient's ability to meet the grant/cooperative agreement objectives. The notification must include information on action taken or contemplated in response to the problem and any assistance needed to resolve the situation.

All materials developed with funding from this agreement must be submitted in an electronic format (preferably Microsoft Word). The Recipient is strongly encouraged to submit Progress Reports via electronic mail to the Grants Officer listed on the FNS-529. If the Recipient wishes to send a hard copy, an original shall be sent to the address listed on the Grant/Cooperative Agreement Form FNS-529, box 18.

PROPERTY STANDARDS

8. Insurance Coverage: The Recipient must provide the equivalent insurance coverage for real property and equipment acquired or improved with Federal funds.

9. Intangible Property:

- a. The Recipient may copyright any work that is subject to copyright and was developed, or for which ownership was acquired, under the award ([41 CFR 105-72.406](#)). The Agency reserves a royalty-free, nonexclusive, and irrevocable right to reproduce, publish or otherwise use the work for “federal purposes” and to authorize others to do so. Federal purposes" include the use of award products in activities or programs undertaken by the Agency, in response to a governmental request, or as otherwise required by federal law. The Agency may request copies of an award product for not-for-profit use. These copies will be provided at the cost of reproduction and shipping, and no royalties or other fees will be charged. However, the Agency’s use of copyrighted materials is not intended to interfere with or disadvantage the recipient or assignee in the sale and distribution of the award product.” The Recipient is subject to applicable regulations governing patents and inventions, including governmentwide regulations issued by the Department of Commerce at [37 CFR P401](#).
- b. The Agency has the right to:
 1. Obtain, reproduce, publish or otherwise use the data first produced under an award; and
 2. Authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes.

- c. In addition, in response to a Freedom of Information Act (FOIA) request for research data relating to published research findings produced under an award that were used by the Federal Government in developing an agency action that has the force and effect of law, the Agency must request, and the recipient shall provide within a reasonable time, the research data so that they can be made available to the public through the procedures established under the FOIA. If the Agency obtains the research data solely in response to a FOIA request, the Agency may charge the requester a reasonable fee equaling the full incremental cost of obtaining the research data. This fee should reflect costs incurred by the Agency, the recipient, and applicable sub-recipients. This fee is in addition to any fees the agency may assess under the FOIA ([5 U.S.C. 552\(a\)\(4\)\(A\)](#)).
 - d. As defined in [2 CFR 200.315](#), title to intangible property (see definition for *Intangible property* in [2 CFR 200.1](#)) acquired under an award or sub-award vests upon acquisition in the Recipient. The Recipient must use that property for the originally authorized purpose and must not encumber the property without Agency approval. The Agency reserves the right to determine the disposition of the intangible property when it is no longer needed for the originally authorized purpose.
- 10. Federally-owned and exempt property:** Title to federally-owned property remains vested in the Federal entity. The Recipient must submit annually an inventory listing of federally-owned property in its custody to the Agency. Upon completion of the project, or when the property is no longer needed, the recipient must contact the Agency for instruction on utilization or disposition ([2 CFR 200.312](#)).
- 11. Equipment:** Equipment is defined as tangible, nonexpendable personal property having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. The purchase of equipment not included in the approved project budget is allowable only if it is specifically approved beforehand by the Agency and there is documentation to support that the purchase is necessary and reasonable to carry out project activities.

Equipment records must be maintained that include the description of the equipment, the serial number or other identification number, the source of funding for the equipment (including the Federal Award Identification Number, or FAIN), the title

holder, the acquisition date, the percentage of Federal participation in the project costs for the Federal award under which the equipment was acquired, the location, use, and condition of the equipment, and any ultimate disposition data including the date of disposal and the sale price of the equipment. A physical inventory of the equipment must be taken, and the results reconciled with the equipment records every two years or at the grant close out, based on which of these occurs first. A Tangible Personal Property Report, SF-428, 428B, and 428S, must be submitted at award close-out to report the status of the equipment. The Recipient will follow the Agency's equipment disposition guidance and procedures as defined in [2 CFR 200.312](#).

12. **Sub-recipient compliance:** The Recipient will ensure that sub-recipients are in compliance with applicable Federal administrative requirements and cost principles. No funds shall be provided to an eligible collaborator or contractor before such an agreement is signed by all parties.

PROCUREMENT STANDARDS

The recipient will adhere to all procurement standards, including those listed below, if applicable, as found in [2 CFR 200.318 through 2 CFR 200.323](#), however, State recipients will comply with [2 CFR 200.317](#). When procuring property and services under a Federal award, a State must follow the same policies and procedures used for procurements from its non-Federal funds.

General procurement standards: The non-Federal entity must use its own documented procurement procedures, which reflect applicable State and local laws and regulations provided that procurements conform to applicable Federal law and the standards identified in this section. The Recipient must maintain oversight over contractors to ensure performance in accordance with the terms, conditions and specifications of their contracts or purchase orders, including written performance standards of its employees engaged in the selection, award and administration of contracts. The non-Federal entity must award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. In accordance with [2 CFR 200.318\(j\)\(1\)](#), the non-Federal entity may only use time and material type contracts after a determination that no other contract is suitable and if the contract includes a ceiling that the contractor exceeds at its own risk.

Buy America Preference in Federal Financial Assistance Programs for Infrastructure

Buy America Preference. Recipients of an award of Federal financial assistance from a program for infrastructure are hereby notified that none of the funds provided under this award may be used for an infrastructure project unless:

- (1) All iron and steel used in the project are produced in the United States—this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
- (2) All manufactured products used in the project are produced in the United States—this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard that meets or exceeds this standard has been established under applicable law or regulation for determining the minimum amount of domestic content of the manufactured product; and
- (3) All construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States. The construction material standards are listed below.

Incorporation into an infrastructure project. The Buy America Preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America Preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project, but are not an integral part of the structure or permanently affixed to the infrastructure project.

Categorization of articles, materials, and supplies. An article, material, or supply should only be classified into one of the following categories: (i) Iron or steel products; (ii) Manufactured products; (iii) Construction materials; or (iv) Section 70917(c) materials. An article, material, or supply should not be considered to fall into

FOOD & NUTRITION SERVICE
STANDARD TERMS AND CONDITIONS
TEMPLATE

multiple categories. In some cases, an article, material, or supply may not fall under any of the categories listed in this paragraph. The classification of an article, material, or supply as falling into one of the categories listed in this paragraph must be made based on its status at the time it is brought to the work site for incorporation into an infrastructure project. In general, the work site is the location of the infrastructure project at which the iron, steel, manufactured products, and construction materials will be incorporated.

Application of the Buy America Preference by category. An article, material, or supply incorporated into an infrastructure project must meet the Buy America Preference for only the single category in which it is classified.

Determining the cost of components for manufactured products. In determining whether the cost of components for manufactured products is greater than 55 percent of the total cost of all components, use the following instructions:

- (a) For components purchased by the manufacturer, the acquisition cost, including transportation costs to the place of incorporation into the manufactured product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (b) For components manufactured by the manufacturer, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (a), plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the manufactured product.

Construction material standards. The Buy America Preference applies to the following construction materials incorporated into infrastructure projects. Each construction material is followed by a standard for the material to be considered “produced in the United States.” Except as specifically provided, only a single standard should be applied to a single construction material.

- (1) Non-ferrous metals. All manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.
- (2) Plastic and polymer-based products. All manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or, where applicable,

TEMPLATE

constituent composite materials, until the item is in its final form, occurred in the United States.

(3) Glass. All manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States.

(4) Fiber optic cable (including drop cable). All manufacturing processes, from the initial ribboning (if applicable), through buffering, fiber stranding and jacketing, occurred in the United States. All manufacturing processes also include the standards for glass and optical fiber, but not for non-ferrous metals, plastic and polymer-based products, or any others.

(5) Optical fiber. All manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States.

(6) Lumber. All manufacturing processes, from initial debarking through treatment and planing, occurred in the United States.

(7) Drywall. All manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.

(8) Engineered wood. All manufacturing processes from the initial combination of constituent materials until the wood product is in its final form, occurred in the United States.

Waivers

When necessary, recipients may apply for, and the agency may grant, a waiver from these requirements. The agency should notify the recipient for information on the process for requesting a waiver from these requirements.

When the Federal agency has made a determination that one of the following exceptions applies, the awarding official may waive the application of the Buy America Preference in any case in which the agency determines that:

(1) applying the Buy America Preference would be inconsistent with the public interest;

FOOD & NUTRITION SERVICE
STANDARD TERMS AND CONDITIONS
TEMPLATE

(2) the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality; or

(3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent.

A request to waive the application of the Buy America Preference must be in writing. The agency will provide instructions on the format, contents, and supporting materials required for any waiver request. Waiver requests are subject to public comment periods of no less than 15 days and must be reviewed by the Made in America Office.

There may be instances where an award qualifies, in whole or in part, for an existing waiver described at [[USDA Buy America Waivers for Federal Financial Assistance | USDA](#)].

Definitions

“Buy America Preference” means the “domestic content procurement preference” set forth in section 70914 of the Build America, Buy America Act, which requires the head of each Federal agency to ensure that none of the funds made available for a Federal award for an infrastructure project may be obligated unless all of the iron, steel, manufactured products, and construction materials incorporated into the project are produced in the United States.

“Construction materials” means articles, materials, or supplies that consist of only one of the items listed in paragraph (1) of this definition, except as provided in paragraph (2) of this definition. To the extent one of the items listed in paragraph (1) contains as inputs other items listed in paragraph (1), it is nonetheless a construction material.

(1) The listed items are:

(i) Non-ferrous metals;

(ii) Plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables);

(iii) Glass (including optic glass);

STANDARD TERMS AND CONDITIONS
TEMPLATE

- (iv) Fiber optic cable (including drop cable);
- (v) Optical fiber;
- (vi) Lumber;
- (vii) Engineered wood; and
- (viii) Drywall.

(2) Minor additions of articles, materials, supplies, or binding agents to a construction material do not change the categorization of the construction material.

“Infrastructure” means public infrastructure projects in the United States, which includes, at a minimum, the structures, facilities, and equipment for roads, highways, and bridges; public transportation; dams, ports, harbors, and other maritime facilities; intercity passenger and freight railroads; freight and intermodal facilities; airports; water systems, including drinking water and wastewater systems; electrical transmission facilities and systems; utilities; broadband infrastructure; and buildings and real property; and structures, facilities, and equipment that generate, transport, and distribute energy including electric vehicle (EV) charging.

“Infrastructure project” means any activity related to the construction, alteration, maintenance, or repair of infrastructure in the United States regardless of whether infrastructure is the primary purpose of the project. See also paragraphs (c) and (d) of 2 CFR 184.4.

“Iron or steel products” means articles, materials, or supplies that consist wholly or predominantly of iron or steel or a combination of both.

“Manufactured products” means:

- (1) Articles, materials, or supplies that have been:
 - (i) Processed into a specific form and shape; or
 - (ii) Combined with other articles, materials, or supplies to create a product with different properties than the individual articles, materials, or supplies.
- (2) If an item is classified as an iron or steel product, a construction material, or a Section 70917(c) material under 2 CFR 184.4(e) and the definitions set forth in 2 CFR

FOOD & NUTRITION SERVICE
STANDARD TERMS AND CONDITIONS
TEMPLATE

184.3, then it is not a manufactured product. However, an article, material, or supply classified as a manufactured product under 2 CFR 184.4(e) and paragraph (1) of this definition may include components that are construction materials, iron or steel products, or Section 70917(c) materials.

“Predominantly of iron or steel or a combination of both” means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components.

“Section 70917(c) materials” means cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives. See Section 70917(c) of the Build America, Buy America Act.

- 13. FNS Build America Buy America Waiver Process:** A written request to waive the application of the domestic content procurement preference must be submitted to FNS at, sm.fn.fm-grantpolicy@usda.gov, and must include the following in the title of the email: “(Title of Grant) – Buy American Preference Waiver Request”. Please also use the following suggested format with the waiver exception request:

- Exception being requested (#1-#3 listed in waivers section above) along with a brief narrative explaining the need for the waiver request.
- Include a section with specific information that supports the exception being requested.
- Attach any supporting documentation such as estimates, invoices, receipts, letters of support, and/or any other documentation that would support the exception requested.

Waiver requests will be decided on a case-by-case basis. FNS will be responsible for seeking public comment of no less than 30 days on General Applicability waiver (#1 listed in waivers section above) requests, while all other waiver requests (#2-#3 listed in waivers section above) are subject to a minimum 15-day public comment period. All waiver requests will be posted for public comment at <https://www.usda.gov/ocfo/federal-financial-assistance-policy/USDABuyAmericaWaiver>. Additionally, all waivers must be reviewed by the Made in America Office before a final decision is provided. The Made in American Office will notify FNS of its determination. The decision provided is final and there is no further appeal process.

There may be instances where an award qualifies, in whole or in part, for an existing approved USDA-wide waiver described at <https://www.usda.gov/ocfo/federal-financial-assistance-policy/USDABuyAmericaWaiver>. This website provides information on the currently approved Buy American for Infrastructure Waivers for De Minimis, Small Grants and Minor Components. These waivers are separate and distinct from the waivers and accompanying waiver request process listed above.

A general description of the existing waivers can be found below:

- 1) The De Minimis Waiver sets a threshold of 5% of project costs up to a maximum of \$1,000,000. This waiver applies to infrastructure project purchases below a de minimis threshold. For example, if a recipient's award is \$1,000,000, up to \$50,000 in infrastructure costs would be exempt from the Buy American for Infrastructure requirements.
- 2) The Small Grants Waiver applies to awards with total federal funding below the Simplified Acquisition Threshold, which is currently set at \$250,000. Any grant with total funding below \$250,000 would be exempt from the Buy American for Infrastructure requirements.
- 3) The Minor Components Waiver allows for minor deviations for miscellaneous minor components within iron and steel products in a project when there is no domestic component available. This waiver allows recipients of USDA funds to use non-domestically produced miscellaneous minor component comprising no more than 5% of the total material cost of an otherwise domestically produced iron and steel product to be used. The recipient is expected to provide analysis that the awarding agency and staff office will need to verify and validate.

Prior to any entering any procurement transactions related to the grant award, grant recipients and sub-recipients must provide the awarding agency with advanced notification of their intent to utilize an existing USDA Buy American for Infrastructure Waiver. The grant recipient or sub-recipient must receive concurrence from their awarding agency prior to proceeding with utilizing the USDA Buy American for Infrastructure Waivers. Notifications must be sent to sm.fn.fm-grantpolicy@usda.gov, and a final concurrence or denial will be provided within 15 days or receipt. The response provided is final and there is no further appeal process.

14. **Competition:** All procurement transactions must be conducted in a manner providing full and open competition consistent with [2 CFR 200.319](#).
15. **Suspension/Debarment:** The Recipient agrees to ensure that all sub-recipients are neither excluded nor disqualified under the Suspension and Debarment rules found at [2 CFR Part 180](#) and 2 CFR Part [417](#) by doing any one of the following:

FOOD & NUTRITION SERVICE

TEMPLATE

- a. Checking the System for Awards Management (SAM) to determine if the applicant or Recipient has been debarred or suspended. This information can be found at <https://www.sam.gov/>
- b. Collecting a certification that the entity is neither excluded nor disqualified. Because a Federal certification form is no longer available, the Recipient or sub-Recipient electing this must devise its own.
- c. Including a clause to this effect in the sub-recipient agreement and in any procurement contract expected to equal or exceed \$25,000, awarded by the Recipient or a sub-recipient within any agreements.

16. Geospatial Data:

USDA Mission Areas, agencies, and staff offices will ensure that contracts, grants, agreements, and business processes are written to ensure that geospatial data collected utilizing Federal funds is high quality and meets the business requirements. ([DR 3465-01](#))

17. Scientific Integrity:

Any express requirements will be set forth in individual agreements, contracts, statements of work, memoranda of understanding, etc., and/or established via issuance of a separate rule or other Departmental policy. ([DR-1074-001](#))

18. Public Access to Scholarly Publications and Digital Scientific Research Data:

The recipient agrees to comply with USDA's Department-wide public access policy implemented in Departmental Regulation 1020-006 which establishes the USDA policy for public access to scholarly publications and digital scientific research data assets. The USDA will make all peer reviewed, scholarly publications and digital scientific research data assets arising from unclassified scientific research supported wholly or in part by the USDA accessible to the public, to the extent practicable ([DR-1020-006](#))
