SUBJECT: Pandemic Electronic Benefits Transfer Program (P-EBT)
Approval of Alabama's State Plan for Children in Child Care, School
Year 2022-2023

TO: Willie Taylor
Regional Administrator
Southeast Regional Office

The Families First Coronavirus Response Act (P.L. 116-127; the Act), as amended, authorized a temporary assistance program for households with certain SNAP-enrolled children in child care during the public health emergency declared on January 27, 2020. Pursuant to the authority granted under Section 1101 of the Act, FNS approves Alabama's enclosed plan to operate P-EBT for children in child care.

Summary of State's Plan

The Alabama Department of Human Resources and the Alabama State Department of Education will issue P-EBT benefits through the State's Supplemental Nutrition Assistance Program (SNAP) EBT card system to households with eligible children. The State's plan for SNAP-enrolled children in child care covers the months of September 2022 through May 2023.

Children in child care are eligible for benefits if they are enrolled in SNAP and their child care facility is closed or operating with reduced attendance or hours, or if they live in the area of a school that is closed or operating with reduced attendance or hours. The State will use the best feasibly available data and USDA-approved simplifying assumptions to issue benefits in amounts that are tied as closely as possible to the number of days that eligible children do not receive a meal service through their covered child care facility.

At a minimum, the State will identify all children under age 6 who are enrolled in SNAP in the benefit month. The State will not issue child care benefits to any child for months after their SNAP enrollment ends. Finally, the State will ensure that children who receive a benefit through P-EBT's child care component do not also receive a benefit through P-EBT's school component for the same month.

In addition, Alabama will:

- identify SNAP-enrolled children under age 6,
- for each month from August through May, determine if there has been a statewide reduction in access to child care by comparing Child and Adult Care Food Program (CACFP) lunch claims since the start of SY 2022-2023 to the same months prior to the pandemic,

- issue an average benefit to all eligible children statewide for the months Alabama experienced a reduction in child care access:
- calculate the reduction in CACFP lunch claims by comparing current lunch claims to the same months prior to the pandemic:
 - use the reduction in claims for September-October 2022 compared to September-October 2019 to issue benefits for September-November 2022,
 - use the reduction in claims for September-November 2022 compared to the sum of claims for September-November 2019 to issue benefits for December 2022 and January 2023,
 - use the reduction in claims for September 2022 through the most recent month available compared to the sum of claims for the most recent corresponding months prior to the pandemic to issue benefits for February 2023 through May 2023,
- apply the calculated reduction to the average number of instructional days for school children in the same months (18 days, or 180 days over 9 benefit months), times the number of covered months, times the daily benefit amount to determine the statewide average benefit,
- conduct a statewide analysis of P-EBT eligibility for the spring semester months of January-May 2023; if this analysis shows that there is no longer reduced access to child care for a month within the period in question, Alabama will not assign benefits for that month,
 - provide USDA with their tentative average benefit for confirmation prior to issuing benefits,
 - tentatively issue benefits for September through November 2022 in February 2023,
 - tentatively issue benefits for December 2022 and January 2023 in March 2023,
 - tentatively issue benefits for February through May 2023 in June 2023.

Finally, the State will identify risks for improper payments and ensure a high level of integrity.

Estimated Caseload and Value of P-EBT Benefits

The State will calculate monthly benefits for each eligible child in the household equal to the daily reimbursement for a free breakfast, lunch, and snack multiplied by the number of benefit days calculated as described in the State's plan.

Alabama estimates that it will issue \$13.8 million to approximately 116,000 SNAP-enrolled children in child care from September 2022 through May 2023.

Release of Information

Pursuant to Section 1101(e) of the Act, the Secretary hereby authorizes the release of the information necessary to carry out P-EBT in Alabama. Section 1101(e) of the Act states, “Notwithstanding any other provision of law, the Secretary of Agriculture may authorize State educational agencies and school food authorities administering a school lunch program under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) to release to appropriate officials administering the supplemental nutrition assistance program such information as may be necessary to carry out this section.”

Plan Timetable and Revisions

Alabama will distribute benefits to households consistent with the timeframes identified in the State plan. Should the State encounter challenges or delays that significantly impair its ability to implement the approved P-EBT plan or require substantive changes, the State must notify the FNS Regional Office as soon as possible. The FNS Regional Office will work with the State to identify reasonable solutions and review revised plans for approval or further revision.

Civil Rights

Alabama will continue to comply with civil rights requirements by not discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation), disability, age, or reprisal or retaliation for prior civil rights activity. The state will also provide meaningful access to its programs and activities for individuals who are limited English proficient, and provide equal access to individuals with disabilities.

Administrative Funds

The Alabama Department of Human Resources will participate in a P-EBT Administrative Budget Planning process using the FNS-366(a) Program and Budget Summary. When the FNS-366(a) is finalized, that will determine the State’s Administrative Grant level. However, the FNS-366(a), Program and Budget Summary, may be updated and revised as the State’s operational plan evolves.

Reporting

The Alabama Department of Human Resources will complete the FNS-292B, the FNS-46, the FNS-388, and the FNS-778 reports in accordance with existing requirements.

FNS values Alabama's partnership in the administration of Pandemic EBT. FNS stands ready to provide additional support as needed. If you have questions, please contact the FNS Southeast Regional Office.

Sincerely,

Cindy Long
Administrator
