SUBJECT: SNAP – Fiscal Year (FY) 2024 Allocations of Discretionary Exemptions for Able-Bodied Adults without Dependents (ABAWDs) – Not Adjusted for Carryover

TO: All State Agencies
Supplemental Nutrition Assistance Program

The Food and Nutrition Act of 2008 (the FNA) limits the time able-bodied adults without dependents (ABAWDs) may participate in the Supplemental Nutrition Assistance Program (SNAP) to 3 months in any 36-month period, unless an individual fulfills a certain work requirement or is exempt from the time limit. The FNA allocates each State agency a number of monthly discretionary exemptions from the ABAWD time limit for each fiscal year. The number of discretionary exemptions each State agency receives is based on a percentage of the covered individuals in the State, as defined in section 6(o)(6)(A)(ii) of the FNA. As of Fiscal Year (FY) 2024, the Fiscal Responsibility Act of 2023 (the FRA) decreases the percentage from 12 percent to 8 percent of covered individuals.

The Food and Nutrition Service (FNS) estimated the number of new discretionary exemptions each State agency has earned for FY 2024 in the second column of the attached table. State agencies that operated under a Statewide waiver of the ABAWD time limit did not earn any new exemptions.

FNS is also including the total discretionary exemptions available for FY 2023 in the third column of the attached table for reference on the potential total number of discretionary exemptions available for FY 2024. FNS first published these figures in the April 19, 2023, memorandum "[*Fiscal Year 2023 Allocations of Discretionary Exemptions for Able-Bodied Adults Without Dependents*](#)." Please note, the figures in the third column do not account for State agencies' usage of discretionary exemptions over the course of FY 2023.

The FRA also limits the carry over of discretionary exemptions between fiscal years. In FY 2024 and FY 2025, State agencies can continue to carry over unused discretionary exemptions from prior fiscal years. Starting in FY 2026, State agencies' carryover will be limited to unused exemptions earned in the previous fiscal year.

While State agencies have flexibility in applying discretionary exemptions, State agencies must document the use of a discretionary exemption for an individual for Quality Control to apply them to their review.

All State Agencies
Page 2

As a reminder, State agencies must also track their usage of discretionary exemptions on an ongoing basis and report final figures via the FNS-583 form no later than Monday, November 14th, 2023. Once all required data is available, FNS will issue an updated memorandum with the total number of exemptions available to each State agency for FY 2024, accounting for exemptions used in FY 2023 and caseload adjustments.

State agencies with questions regarding discretionary exemptions usage and tracking rules should contact their respective FNS Regional Office representative.

Sincerely,

Moira Johnston
Acting Director
Program Development Division

Utah	2,508	51,827
Vermont	2,724	26,880
Virginia ³	26,040	501,748
Virgin Islands ³	0	3,948
Washington	10,224	53,116
West Virginia	15,228	207,483
Wisconsin	14,844	139,833
Wyoming	1,080	40,381

² New Mexico overused 15 percent exemptions in the first and second quarters of FY 2009. The State has had waivers since that time and therefore has not earned any exemptions since that time. The State cannot use 15 percent exemptions until its negative balance is eliminated.

³ CORRECTION: These are the correct values for the total available for FY 2023, not including adjustments for usage in FY 2023. The figures were transposed incorrectly for Virginia and the Virgin Islands in the Spring FY 2022 and FY 2023 memos.
