United States Department of Agriculture (USDA), Food and Nutrition Service (FNS) Month-To-Month Contingent Approval to Continue Issuing Supplemental Nutrition Assistance Program (SNAP) Emergency Allotments (EA) Benefits under the Families First Coronavirus Response Act of 2020

Section 2302(a)(1) of the Families First Coronavirus Response Act of 2020, allows States to request COVID-19 EA “for households participating in the supplemental nutrition assistance program... to address temporary food needs.” The State must support its request with sufficient data, as determined through FNS guidance. A household’s EA cannot increase the current monthly household SNAP benefit allotment beyond “the applicable maximum monthly allotment for the household size.” Accordingly, SNAP households that already receive the maximum monthly allotment for their household size are not eligible for EA.

States that have already received FNS approval for EA issuance in March and April, or April and May, are approved to continue issuing EA benefits each month. This approval to extend these EAs will remain in place until such a time as the Secretary for Health and Human Services rescinds the public health emergency declaration that was issued on January 27, 2020, under section 319 of the Public Health Service Act or the State-issued emergency or disaster declaration expires.

This approval is contingent upon the State submitting the information below to the FNS Region no sooner than the 15th of each month for the subsequent month and awaiting FNS acknowledgement before sending the Emergency Allotment issuance file(s) to their Electronic Benefits Transfer processor.

Prior to each month of EA issuance, the State shall provide the following information to its FNS Regional SNAP contact(s), who will acknowledge receipt:

State/Territory: Guam

1. September
[2020] EA Issuance date(s): September 18, 2020 * (Please see page 2)
(Provide exact dates of planned EA issuance for the month or annotate above if the State will be providing EA benefits in accordance with the State’s regular issuance schedule.)
2. September
[2020] estimate of the number of households and estimated EA amount:
Number of households receiving emergency allotment benefits: 7,198
Amount of emergency allotment benefits issued for one month: \$ 1,974,092.00
3. **Confirmation** that one or more of the following conditions exists due to COVID-19. (Check all that apply):
 - Residents of the State are confirmed to have contracted COVID-19
 - Some or all areas of the State are containment or quarantine zones
 - Businesses have closed or significantly reduced their hours
 - The State’s residents have experienced economic impacts due to job suspensions or losses

- The State's residents have been directed to practice social distancing
And
 The State's emergency or disaster declaration remains active.

All FNS requirements shall remain the same as listed in the initial State approval.

USDA reserves the right to withdraw or otherwise modify this approval subject to availability of funding.

- * September 2020 EA benefits will be processed on September 18, 2020, for the cases that did not receive the maximum allotment. Cases that have an application date of September 2020, will be provided EA benefits through over-the-counter issuances done by the Eligibility Specialists.

EXECUTIVE ORDER NO. 2020-29

**RELATIVE TO EXTENDING PUBLIC HEALTH EMERGENCY
AND MODIFIED STAY-AT-HOME ORDER**

WHEREAS, since March 14, 2020, Guam, like much of the rest of world, has been in a state of emergency in response to the effects of the global pandemic caused by the 2019 novel coronavirus ("COVID-19"); and

WHEREAS, pursuant to Section 19405, Chapter 19 of Title 10, Guam Code Annotated, public health emergencies declared by the Governor of Guam terminate at the conclusion of thirty (30) days unless otherwise extended; and

WHEREAS, since first declaring a public health emergency in Executive Order No. 2020-03, the rising number of cases both locally and globally have caused me to extend the public health emergency six (6) times; and

WHEREAS, Guam has adopted a system of readiness known as Pandemic Conditions of Readiness ("PCOR") System, which is intended as a guide to decision-making regarding the gradual lifting of restrictions and imposition of mandates; and

WHEREAS, also on April 30, 2020, I declared Guam to be in PCOR 1, and continued the imposition of the most stringent restrictions on social gatherings, prohibitions on non-essential activities, conditions on operations of essential activities, and closures of congregate facilities, including schools; and

WHEREAS, on May 8, 2020, pursuant to Executive Order No. 2020-14, I declared Guam to be in PCOR 2, permitting limited activities to operate under moderate restrictions, subject to Department of Public Health and Social Services ("DPHSS") Guidance, occupancy limits and implementation of mitigation measures; and

WHEREAS, on July 19, 2020, pursuant to Executive Order No. 2020-24, I declared Guam to be in PCOR 3, permitting businesses and activities to operate, with exceptions, subject to occupancy limitations and the implementation of mitigation measures, including social distancing and the wearing of face masks; and

WHEREAS, despite the restrictions in place, the number of COVID-19 cases in Guam increased drastically, and on August 16, 2020, Guam reverted to PCOR 1 to try to slow COVID-19's spread in our community; and

WHEREAS, on August 21, 2020, in response to our island experiencing a severe increase in positive COVID-19 cases, our highest single day total for positive tests as of that date, and our sixth (6th) fatality to COVID-19, I ordered all Guam residents to stay-at-home for an interim one-week period; and

WHEREAS, this Stay-at-Home order instituted the most restrictive conditions, closing all

businesses and limiting access to government offices except for those deemed critical and prohibiting the use of public spaces like beaches and parks for any purpose; and

WHEREAS, in the six (6) days that have elapsed since the Stay-at-Home Order was instituted, Guam has experienced a surge in positive cases, increasing our total by 343, bringing the number of positive cases to over one thousand (1,000) for the duration of the pandemic, with four (4) more members of our community succumbing to this disease; and

WHEREAS, as of the time of this Order, there are thirty (30) COVID-19 positive individuals hospitalized at Guam Memorial Hospital, which means the hospital is beyond its COVID-19 capacity, and further arrangements must be made to assist with the treatment of these individuals and the anticipated influx of additional COVID-19 patients; and

WHEREAS, a high positivity rate greatly impacts our health care system's ability to safely treat all patients requiring hospitalization for COVID-19 without resorting to crisis standards of care; and

WHEREAS, eighty-two (82) cases of COVID-19 have been identified while under quarantine pursuant to DPHSS Guidance; and

WHEREAS, for the preservation of public health and safety throughout our island, it is necessary to continue strict stay-at-home measures and restrictions on entry into Guam on a temporary basis, to help our healthcare delivery system cope with the increased admissions of residents infected with COVID-19; and

WHEREAS, even as we persist under a continued stay-at-home order, it is necessary to adjust permissible services and activities available to ensure that our residents remain healthy and safe as we weather this difficult time.

NOW THEREFORE, I, LOURDES A. LEON GUERRERO, *I Maga'hågan Guåhan*, Governor of Guam, by virtue of the of the authority vested in in me by the Organic Act of Guam as amended, do hereby order:

 - a. All individuals are directed to continue to stay at home or in their places of residence, subject to limited exceptions delineated in DPHSS Guidance 2020-36. With respect to persons residing in hotels, condominiums, townhomes, apartments, or other multi-unit dwellings, "place of residence" means the person's individual hotel room or unit.
 - b. Individuals may leave their home to provide or to avail themselves of authorized services enumerated in DPHSS Guidance 2020-36, which are identified and designated for the purpose of protecting the health and well-being of all Guam residents during the pendency of this Directive, and to ensure continuity of critical healthcare, government functions, public safety, and supply chain operations so that Guam residents have uninterrupted access to necessities such as food, prescriptions, and health care.
