**SUBJECT: Pandemic Electronic Benefits Transfer Program (P-EBT)
Approval of Hawaii's State Plan for School Children**

TO: Jesus Mendoza Jr.
Regional Administrator
Western Regional Office

The Families First Coronavirus Response Act (P.L. 116-127; the Act) as amended by the Continuing Appropriations Act, 2021 and Other Extensions Act (P.L. 116-159) and the Consolidated Appropriations Act, 2021 (P.L. 116-260) authorized the continuation of a temporary assistance program for households with children affected by school closures during the public health emergency that was declared on January 27, 2020. Pursuant to the authority granted under Section 1101 of the Act, FNS approves Hawaii's enclosed plan to operate P-EBT for school children.

Summary of State's Plan

The Hawaii Department of Human Services and the Hawaii Department of Education will issue P-EBT benefits through the State's Supplemental Nutrition Assistance Program (SNAP) EBT card system to current SNAP households and non-SNAP households with eligible children. The State's plan covers the months of October 2020 through June 2021.

Children are eligible if they would have received free or reduced price meals at their schools through the National School Lunch Program (NSLP) if not for the closure or reduced attendance or hours of their schools for a period of at least 5 consecutive days. The State will use the best feasibly available data and USDA-approved simplifying assumptions to issue benefits in amounts that are tied as closely as possible to the number of days that eligible children do not receive a meal service at school.

The State and its school districts will identify children eligible for free or reduced price NSLP meals using the most current available data. All school districts that rely on SY 2019-2020 eligibility data will have a means to address that they do not issue benefits to last year's graduates and non-students, and will offer households with new students the ability to establish their eligibility through the traditional school food authority-run school meal application and direct certification processes.

In addition, Hawaii will:

- issue benefits for the retroactive snack reimbursement for August and September 2020 and for the full daily benefit for October 2020 through March 2021 in two issuances shortly after plan approval,
- issue benefits for the rest of the school year retrospectively on a monthly basis around the 15th of the month:

- each school will declare its predominate learning mode (fully virtual, fully in-person, or hybrid schedule) in writing on the first school day of each month,
- schools will notify the Hawaii Department of Education immediately of any COVID-related changes in school status,
- use schedule data collected from schools to set or adjust average benefits for the next two-month period for children attending a school that utilizes a hybrid schedule; if justified by the data, the state will set a single statewide average benefit for these children, and
- set a constant benefit for children attending fully virtual schools by averaging the number of instructional days by the number of months in the school year

Finally, the State will identify risks for improper payments and ensure a high level of integrity.

Estimated Caseload and Value of P-EBT Benefits

The State will calculate monthly benefits for each eligible child in the household equal to the daily reimbursement for a free breakfast, lunch, and snack multiplied by the number of benefit days calculated as described in the State's plan.

Hawaii estimates that it will issue \$100 million to approximately 98,000 children for school closures and reductions in attendance and hours extending from August 2020 through June 2021.

Release of Information

Pursuant to Section 1101(e) of the Act, the Secretary hereby authorizes the release of the information necessary to carry out P-EBT in Hawaii. Section 1101(e) of the Act states, "Notwithstanding any other provision of law, the Secretary of Agriculture may authorize State educational agencies and school food authorities administering a school lunch program under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) to release to appropriate officials administering the supplemental nutrition assistance program such information as may be necessary to carry out this section."

Plan Timetable and Revisions

Hawaii will distribute benefits to households consistent with the timeframes identified in the State plan. Should the State encounter challenges or delays that significantly impair its ability to implement the approved P-EBT plan or require substantive changes, the State must notify the FNS Regional Office as soon as possible. The FNS Regional Office will work with the State to identify reasonable solutions and review revised plans for approval or further revision.

Civil Rights

Hawaii will continue to comply with civil rights requirements, to include providing equal access to individuals with disabilities and individuals who are limited English proficient.

Administrative Funds

The Hawaii Department of Human Services will participate in a P-EBT Administrative Budget Planning process using the FNS-366(a) Program and Budget Summary. When the FNS-366(a) is finalized, that will determine the State's Administrative Grant level. However, the FNS-366(a), Program and Budget Summary, may be updated and revised as the State's operational plan evolves.

Reporting

The Hawaii Department of Human Services will complete the FNS-292B, the FNS-46, the FNS-388, and the FNS-778 reports in accordance with existing requirements.

FNS appreciates Hawaii's commitment to meet the nutritional needs of children during a challenging time. If you have questions, please contact the FNS Western Regional Office.

Sincerely,

Cindy Long
