State Plan for Pandemic EBT Children in School and Child Care, 2022-2023

Issuing	FNS / Child Nutrition Programs, Supplemental Nutrition				
Agency/Office:	Assistance Program				
Title of Document:	State Plan for Pandemic EBT: Children in School and Child Care, 2022-2023				
Document ID:					
Z-RIN:					
Date of Issuance:	September 8, 2022				
Replaces:	N/A				
Summary:	(1) This document is a template to assist states in the development of state plans to operate Pandemic EBT for children in schools or child care during school year (SY) 2022-2023. (2) This document relates to Section 4601 of the Families First Coronavirus Response Act (P.L. 116-127) as amended by the Continuing Appropriations Act, 2021 and Other Extensions Act (P.L. 116-159), the Consolidated Appropriations Act, 2021 (P.L. 116-260), and the American Rescue Plan Act of 2021 (P.L. 117-2).				

Additional context and background for this document can be found at State Guidance on Coronavirus P-EBT: <u>Click Here</u>

The submission of a P-EBT state plan, associated template, and related reporting obligations are addressed in OMB# 0584-0660, Pandemic Electronic Benefit Transfer (P-EBT), expiration 11/30/2023.

State Plan for Pandemic EBT Children in School and Child Care, 2022-2023

1. State: Kentucky

2. Primary Citations: Families First Coronavirus Response Act (FFCRA); Continuing Appropriations Act, 2021 and Other Extensions Act; Consolidated Appropriations Act, 2021; American Rescue Plan Act of 2021

3. Executive Summary:

Please provide the following data. In addition, please include a statement indicating that you commit to informing USDA of any significant increase or decrease in these data points during the *date range*^I covered by this initial plan (or subsequent amendment).

- a. The *date range* covered by this state plan or amendment
 - for children in school
 - for children in child care
- b. Estimated monthly and total *amount* of P-EBT benefits the state will issue within this plan/amendment's date range.
 - Estimated amount issued to school children in SNAP households.
 - Estimated amount issued to school children in non-SNAP households
 - Estimated amount issued to non-school children in child care
- c. Estimated total *number* of children to which the state will issue P-EBT benefits.
 - Estimated number of school children in SNAP households
 - Estimated number of school children in non-SNAP households
 - Estimated number of non-school children in child care
- d. Tentative P-EBT issuance schedule (the dates on which you will issue P-EBT benefits).
 - School children in SNAP households
 - School children in non-SNAP households
 - Children in child care
- e. Names of state agencies involved in administering this plan.

Response:

- a) The *date range* covered by this state plan or amendment
 - for children in child care- September 1, 2022 through May 11, 2023. A prorated benefit will be issued for May as follows:
 - Actual school days (9) multiplied by calculated daily rate= May 2023 benefit
- b) Estimated monthly and total *amount* of P-EBT benefits the state will issue within this plan/amendment's date range.

¹ The date range covered by P-EBT state plan or amendment. A state's plan will typically cover the instructional months in the state's school year (September 2022 through June 2023, for example).

• Estimated amount issued to non-school children in child care is \$5,456,000 per month (Sept.-Dec 2022)

i. Estimated amount issued to non-school children in child care is \$5,456,000 per month (Jan-May 2023)

- Estimated total issuance to non-school children in child care is \$49,104,000
- The estimated total *number* of non-school children to which the State will issue P-EBT benefits is approximately 40,000.
- c) Tentative P-EBT issuance schedule (the dates on which you will issue P-EBT benefits).
 - School children in SNAP households
 - School children in non-SNAP households
 - Children in child care
 - All children who were P-EBT eligible during the months of September, October, November, and/or December 2022 will receive P-EBT benefits on or around June 25, 2023.
 - All children who were P-EBT eligible during the months of January, February, March, April and/or May 2023 (through May 11th only) will receive P-EBT benefits on or around July 25, 2023.
- d) Names of state agencies involved in administering this plan. The Kentucky Department of Community Based Services (DCBS) is the state agency involved in administering this plan.

4. P-EBT for School Children (see Q&As #7-25)

A. Eligible Children

Standard for P-EBT Eligibility

A child is eligible for P-EBT benefits if two conditions are met:

- 1. The child would be eligible for free or reduced-price meals if the National School Lunch Program and School Breakfast Program were operating normally. This includes children who are:
 - a. directly certified or determined "other source categorically eligible" for SY 2021-2022, or
 - b. certified through submission of a household application processed by the child's school district for SY 2021-2022, *or*
 - c. enrolled in a Community Eligibility Provision school or a school operating under Provisions 2 or 3, *or*
 - d. on the school's most current prior year list of directly certified children, children determined other source categorically eligible, or children certified by application *and* the school district has not made a new school meal eligibility determination for the child in SY 2021-2022.
- 2. The child does not receive free or reduced-price meals at the school because the school is closed or has been operating with reduced attendance or hours for at least 5 consecutive days in the current school year. Once the minimum 5 consecutive day threshold is met, children are eligible to receive P-EBT benefits for closures or reductions in hours due to COVID-19.
 - Describe how the state will identify eligible school children for P-EBT. Please describe separately for the subset of children enrolled in non-NSLP-participating fully virtual institutions or homeschooling who may be eligible for P-EBT (see Q&As #16 and #25). Also describe what measures the state will take to prevent the issuance of benefits to school year 2021-2022 graduates and other non-students.
 - How will the state determine and/or confirm each child's eligibility for free or reduced-price meals?² Please describe separately for SNAP-recipient and non-SNAP-recipient children, children in public and non-public schools, new students (such as kindergarteners and transfer students), children who become eligible during the school year, and the subset of children enrolled in non-NSLP-participating fully virtual institutions or homeschooling who may be eligible for P-EBT.
 - How will the state confirm each child's lack of access to meals at school? Please describe separately for children in public and non-public schools.
 - If the state's schools will continue to impose temporary virtual or hybrid schedules, describe the process that the state will use to update each child's in-person and virtual schedules (see Q&A #12). How frequently will that information be updated? (Note that this information must be updated no less frequently than every other month.).
 - Describe the process that the state will use to identify individual students' COVIDrelated absences or virtual learning days, including the process to identify, confirm and monitor the enrollment status of children in non-NSLP-participating fully virtual institutions or homeschooling.
 - Describe the roles and responsibilities of each state agency or other partners involved in P-EBT (e.g., which agency is responsible for confirming eligibility).
 - Describe any simplifying assumptions the state proposes to use and the justification for using those simplifying assumptions. **Please address both in detail.** In addition,

² The burden associated with National School Lunch Program applications is covered under OMB Control # 0584-0026, 7 *CFR Part 245 - Determining Eligibility for Free & Reduced Price Meals and Free Milk in Schools*, expiration date 7/31/23.

please describe any proposed measures that the state will take to address program integrity when using the proposed simplifying assumptions. (*Please review Q&A #25 on simplifying assumptions regarding fully virtual schools and homeschooling.*)

Response: [please use as much space as needed]

Kentucky may submit an amendment to include students at a later date.

B. School Status

Standard for P-EBT Eligible School Status

Children are eligible for P-EBT benefits if they are eligible for free or reduced price meals, but are unable to receive those meals at school due to the operating status of their schools as outlined below:

- 1. The school is closed (including any delayed start or early closure to the school year), or the school is operating with reduced attendance or hours.
- 2. School closures do not include weekends, or days when the school is closed due to a holiday or regularly scheduled break (Thanksgiving, New Year's Day, Spring Break, etc.).
- 3. The period of closure or reduced attendance or hours must meet the current school year minimum 5 consecutive day threshold before any child is eligible for P-EBT benefits. Once the minimum 5 consecutive day threshold is met, children are eligible to receive P-EBT benefits for closures or reductions in hours and/or attendance due to COVID-19.
 - Describe how the state will identify, confirm and monitor the status of individual schools. Also describe how the state will identify the period of duration of the closure, reduced hours, or reduced attendance of the state's schools.
 - How will the state confirm that the child's school has been closed or is operating with reduced attendance or hours for a minimum of 5 consecutive days?
 - Describe how this information will be obtained and how often the state will collect updated information from schools. (Note that this information must be updated no less frequently than every other month.)
 - Describe any simplifying assumptions the state proposes to use and the justification for using those simplifying assumptions. Please address both in detail. In addition, please describe any proposed measures that ensure program integrity when using the proposed simplifying assumptions.

Response: [please use as much space as needed]

5. P-EBT for Children in Child Care (see Q&As #26-33)

Standard for P-EBT Eligibility

A child enrolled in a covered child care facility is eligible for P-EBT if:

- 1. The child is a member of a household that is enrolled in SNAP in the benefit month.
- 2. The child is enrolled in a covered child care facility. (Note that under the FFCRA, USDA deems all children under the age of 6 to be enrolled in a covered child care facility.)
- 3. During a public health emergency designation, the child's child care facility is closed or is operating with reduced attendance or hours for at least 5 consecutive days, resulting in the child's inability to attend the facility; or one or more schools in the area of the facility, or in the area of the child's residence, is closed or is operating with reduced attendance or hours.

There are no changes for P-EBT for children in child care from SY 2021-2022. USDA encourages states to refer to their **approved** SY 2021-2022 child care plan to complete this section. Please describe:

- how the state will identify eligible children and confirm their eligibility consistent with the above standard,
- how the state will set benefit levels for children,
- the roles and responsibilities of each state agency or other partners involved in P-EBT and
- any simplifying assumptions the state proposes to use and the justification for using those simplifying assumptions.

If the state will establish a reduction in access to child care using the CACFP data method, we recommend that the state respond to all points as described in their **approved** SY 2021-2022 child care plan, such as:

- The state will confirm that there has been a statewide reduction in access to child care for each of the months of the current school year relative to the same months immediately prior to the pandemic, and will share this data and calculations with USDA before issuing benefits for any months.
- The state will use the sum of CACFP lunch claims for child care centers and family day care homes as reported by the state on the FNS-44³. The state will exclude at-risk lunches and adult lunches.
- The state will set an average monthly P-EBT child care benefit using the reduction in aggregate lunch claims over a designated period of time, the average number of school instructional days over the course of the current school year, and the SY 2022-2023 P-EBT benefit per day.
- The designated period over which the state will set the average monthly benefit (e.g., a separate average monthly benefit for the fall semester and the spring semester).
- The state will monitor CACFP lunch claims through the end of the school year (or through the end of the public health emergency, as applicable) and will only issue

³ The burden associated with state reporting of CACFP meal claims via the FNS-44 form is covered under OMB Control number 0584-0594, *Food Programs Reporting System (FPRS)*, expiration date July 31, 2023.

benefits for months where lunch claims remain below claims for the most recent same month prior to the pandemic.

USDA will continue to support states with their calculations for the above approach.

If the state will establish a reduction in access to child care using a different approach, such as individual children's eligibility or proximity to area schools, then please describe below what the state will do and how this approach will be consistent with the above standard, such as:

- How will the state determine that a child's residence is in the area of one or more schools that is closed or is operating with reduced attendance or hours? (See Q&A #30)
- For children whose residence is *not* in the area of one or more closed schools or schools operating with reduced attendance or hours, how will the state determine those children's eligibility? (See Q&A #32-33). Specifically, how will the state determine that:
 - \circ the child's child care facility is closed or is operating with reduced attendance or hours, or
 - the child's child care facility is in the area of one or more schools that are closed or operating with reduced attendance or hours?
- Are there any state or local public health ordinances that limit the capacity of child care facilities in response to COVID-19 in your state? If yes, describe how you will use those to find that all SNAP-participant children under age 6 are eligible for P-EBT in those areas?
- Describe the process that the state will use to update and re-establish each child's continued P-EBT eligibility and benefit level consistent with changes in the operating status of the child care facility or area schools? How frequently will that information be updated? (Note that this information must be updated no less frequently than every other month.)

Response: [please use as much space as needed]

Kentucky will identify all children under 6 years of age that were part of a household that received SNAP during each month of the P-EBT benefit period of September 2022 through May 11, 2023. Households who apply for SNAP on or after May 12, 2023, are not eligible for P-EBT child care benefits. SNAP recipient children under 6 years of age who were not enrolled in school will receive retroactive P-EBT benefits equivalent to the USDA calculated monthly rate for each month the child was a SNAP recipient. Kentucky will review SNAP participation during each month of the plan period (September 2022-May 11, 2023) to determine each child's P-EBT eligibility for each month. A child is eligible to receive child care P-EBT benefits only in months that the child was a SNAP recipient.

The state will use the sum of CACFP lunch claims for child care centers and family day care homes as reported by the state on the FNS-44⁴. The state will exclude at-risk lunches and adult lunches.

Kentucky will set a monthly P-EBT child care benefit for each semester using the reduction in aggregate lunch claims over a designated period of time, the average of 18 school instructional days per month (September 2022-April 2023), and the SY 2022-2023 P-EBT benefit per day. The calculation will use the most recent available CACFP claims data and corresponding pre-Pandemic data to establish a decrease in claims and to calculate the P-EBT benefit for each semester. Per USDA recommendation, Kentucky will compare the months of September through December 2019 to September through December 2022 to calculate benefits for the Fall Semester months (September through December). Kentucky will calculate Spring Semester benefits (January- May 11th) by comparing data from the months of January through February 2020 to January through February 2023. If March 2023 data is available at time of P-EBT benefit issuance, Kentucky will compare January through February 2020 and March 2019 to January through March 2023.

Once the spring semester rate is established, Kentucky will calculate the May benefit using 9 benefit days. Kentucky commits to sharing the data and calculations with USDA prior to the issuance of P-EBT benefits.

The state will monitor CACFP lunch claims through the end of the school year (or through the end of the public health emergency, as applicable) and will only issue benefits for months where lunch claims remain below claims for the most recent same month prior to the pandemic.

6. Benefit Levels

Standard for Benefit Levels

1. The full daily benefit level for each eligible child is equal to the free reimbursement for a breakfast, a lunch, and a snack for school year 2022-2023. The benefit is multiplied by the number of days that the eligible child's status makes them eligible for P-EBT benefits.

⁴ The burden associated with state reporting of CACFP meal claims via the FNS-44 form is covered under OMB Control number 0584-0594, *Food Programs Reporting System (FPRS)*, expiration date July 31, 2023.

SY 2022-2023	Free Reimbursements USDA School Meal Programs			
July 1, 2022 - June 30, 2023				Daily
	Lunch	Breakfast	Snack	Total
Contiguous U.S.	\$4.43	\$2.67	\$1.08	\$8.18
Alaska	6.87	4.21	1.75	12.83
Hawaii, Guam, Virgin Islands, Puerto Rico	5.10	3.09	1.26	9.45

Notes:

1. Lunch rates include the 8 cent performance-based reimbursement and the extra 2 cents per meal received by school food authorities in which 60 percent or more of the lunches served during the second preceding school year were served free or at a reduced price.

2. Breakfast rates are those received by "severe need" schools.

3. Snack rates are those for afterschool snacks served in afterschool care programs

4. The figures include the temporary additional funding for school lunch and school breakfast authorized under Section 2 of the Keep Kids Fed Act of 2022.

Source: https://www.federalregister.gov/documents/2022/07/26/2022-15892/national-school-lunch-special-milk-and-school-breakfast-programs-national-average-payments maximum

• Describe the benefit levels proposed, including how days of eligibility will be determined. What simplifying assumptions does the state propose? Why must the state make those simplifying assumptions? Please address both of these questions in detail.

Response: [please use as much space as needed]

7. Implementation Timeline, EBT Processing, and Benefit Issuance

Please provide an implementation timeline for SY 2022-2023 with estimated dates for major milestones in your plan.

- States should develop their timeline cooperatively, including input from its EBT processor and all state agencies involved in implementing P-EBT. Instead of using specific dates, describe important milestones and realistic durations between them. USDA suggests that states build their timelines from the date USDA approves the state's plan (Day #0).
- The timeline must include the state's tentative issuance dates. In past years, most states issued in phases, and on a rolling basis thereafter. For example: issuance to SNAP households Day #10, to non-SNAP households on Day #15, and to newly identified cases from Day #16 onward. This is a best practice, which we encourage states to continue.
- Examples of other possible milestones include, but are not limited to:
 - State Education agency provides student data to SNAP state agency (Day #5)
 - P-EBT hotline becomes active (Day #9)
 - Public notice campaign begins (Day #10), etc.

Please also address each of the following:

- Will the state issue P-EBT benefits on a unique P-EBT card design? If so, who will receive these cards, non-SNAP households only? Or also SNAP households?
- How will the state distinguish P-EBT from SNAP and D-SNAP issuances? USDA strongly encourages the use of a sub-benefit type, even if your state did not do so in P-EBT issuances for previous school years. This will greatly facilitate the states' ability to report and USDA to maintain accountability for P-EBT.
- What will be your draw/spend priority for P-EBT, SNAP, and D-SNAP? USDA suggests making P-EBT first on your draw/spend priority.
- How will the state handle expungement of P-EBT benefits? USDA recommends that states follow the same expungement rules that the state currently follows for SNAP.
- How will you and your EBT processor handle returned P-EBT cards? How will you handle the need to issue replacement cards in these cases?
- Will you issue *new* P-EBT cards to existing P-EBT households?
 - If so, who will receive these cards? Non-SNAP households only? Or also SNAP households?
 - If not, how will you handle cases where the P-EBT household no longer has their P-EBT card?

Response: [please use as much space as needed]

Kentucky will follow the same procedures for all of the aforementioned as defined in previous approved P-EBT plans.

P-EBT benefits will follow the same expungement rules that the state follows for SNAP. Upon notification of an administrative error or extenuating circumstance, DCBS may reissue the expired benefit to the student. Kentucky will continue to use PEBTSN and PEBTOT benefit codes, applicable to SNAP and non-SNAP P-EBT households respectively. Notre, for childcare P-EBT purposes, only code PEBTSN will be utilized as all eligible children are SNAP recipients. The P-EBT draw/spend priority is first.

Kentucky intends to follow the same distribution model utilized during the 2021-2022 P-EBT plan Kentucky SNAP households will receive P-EBT benefits on their EBT card.

8. Customer Service

Recommended Standard for Household Support

USDA strongly encourages states to develop a customer service plan that anticipates common questions from households of children that are eligible and potentially eligible to participate in P-EBT, and that ensures that all who are eligible are able to receive and use their P-EBT benefits.

- 1. USDA strongly encourages states to provide a means to resolve disputes and answer questions from actual or potential P-EBT households.
- 2. USDA strongly encourages states to provide relevant program information to actual and potential P-EBT households.

To complete Section 8, we encourage states to use language from their approved plan from SY 2021-2022 with all necessary updates. -

- How will the state resolve disputes or issuance errors (incorrect benefit amount, denied benefits, etc.)? Based on the large number of such inquiries received by USDA, the states, and EBT processors, USDA suggests a phone number (hotline) staffed by personnel empowered to research and address such cases.
- Please describe how the state will serve groups with potential access problems, for example: homeless children, foster children, children without social security numbers, children and caregivers with limited English proficiency, households without internet access, and people living with disabilities.
- Describe the state's public information campaign. That is, the information you will provide to the general public (i.e., *not directly* to P-EBT participants), and how you will provide that information (i.e., print or broadcast advertising, social media, mailers to the general population).
- Describe what information you will provide for households that do not want the P-EBT benefit that is directly issued to them. How dispose of the card, etc.
- Describe the information you will provide *directly* to P-EBT participants (this is different than the information you provide to the general public), and how you will provide that information. For example:
 - What will you provide to explain the purpose of P-EBT and how to use the benefit? Based on the large number and wide variety of public inquiries that USDA, states, and EBT processor call centers received regarding P-EBT in over the past year, USDA recommends it include:
 - A description of P-EBT
 - Instructions for PINing a P-EBT card
 - Explanation of where benefits can be used
 - Explanation of how benefits can and cannot be used (i.e., eligible foods and non-eligible items)
 - Explanation of violations and penalties, such as trafficking
 - An indication that benefits are non-transferable
 - Instructions for destroying the card, if they want to decline benefits

- Information regarding a hotline, helpdesk, or website/portal that participants can reach out to, if they have questions, need assistance (setting up a PIN, for example)
- How will you provide P-EBT information to non-SNAP households? How will you provide P-EBT information to SNAP households?
 - Will you provide information via mailers? Will the mailer(s) be a flyer/brochure, buck slip, letter, or some other alternative? USDA recommends flyers/brochures, because these can be used more flexibly than buck slips.
 - Will you provide information via e-mail, text messages, social media, website, robo-call, and/or other electronic means?

Response: [please use as much space as needed]

Kentucky has a multi-faceted approach to ensuring robust and accurate communication to all eligible households regardless of primary language, lack of permanent address or access to technology.

The DCBS Call Center will continue to serve as front line customer support. DCBS staff has access to all P-EBT information available on the integrated eligibility system, as well as inquiry access on EBTedge to specifically investigate a child's P-EBT eligibility, benefit amount, and card issuance status.

Kentucky provides P-EBT information and answers to frequently asked questions on the DCBS website and continues to update information to streamline communication and provide clarity. Additionally, DCBS Central Office staff will maintain a P-EBT Microsoft Teams group to provide fast, accurate responses to state field staff when a caller's concerns cannot be easily resolved.

The state is committed to serving all eligible children regardless of primary language. All outreach materials will be translated into Spanish. These materials will be shared with community partners, and other community organizations to distribute to families. All staff are trained to assist Limited English Proficiency (LEP) callers via a DCBS maintained translator services hotline.

Public Awareness Campaign: Kentucky will conduct a public information campaign through use of websites. Kentucky intends to issue a press release in English and Spanish to target state-wide and local news organizations and Senior Leadership to announce at a press conference. Similar to all previous school years, Kentucky will create communication toolkits and will work with community organizations to push out P-EBT materials in required languages (sample website copy, sample social media posts and graphics, flyers, etc.). These outreach materials will be shared with community organizations, partner agencies, and other stakeholders.

9. Over-issuance of P-EBT benefits

To complete Section 9, we encourage states to use language from their approved plan from SY 2021-2022 with all necessary updates.

states should outline a process to recover or adjust P-EBT payments to correct errors on previous issuances. states cannot simply apply their existing SNAP benefit claim process to P-EBT. Accordingly, states should develop P-EBT-specific rules and procedures and include those in their state plans. states must also consider the capability of their SNAP systems to distinguish P-EBT from SNAP benefits.

The process should take into consideration that many households received their benefits, without application, through an automated match process that relied on the state's own administrative data. Reclaiming benefits under those circumstances calls for a process that weighs the equity of the claim, the burden on affected households, and the likelihood and costs of recovery. Given those considerations, a state's P-EBT plan should consider reasonable thresholds for taking action to recover over-issued benefits. states that establish a process for benefit recovery must provide clear notice to beneficiaries of the circumstances under which the state may attempt to recover benefits or reduce a future issuance. Under no circumstances may the state reduce a SNAP benefit to settle a P-EBT claim.

Finally, the states recognize that USDA is responsible for ensuring accountability of funds for P-EBT purposes. As part of its oversight responsibilities, USDA may hold state agencies liable for aggregate over-issuances or improper payments. USDA's course of action is to pursue P-EBT over-issuance claims in the aggregate where USDA believes such action is merited, based on the nature of the error that gave rise to the over-issuance, the size of the error, and whether such action would advance program purposes.

Please describe how your state will manage P-EBT payment errors.

Response: [please use as much space as needed]

Kentucky has considered the fact that many households received their benefits, without application, through an automated match process that relied on the State's own administrative data and that reclaiming benefits under those circumstances would likely burden affected households. Kentucky has also considered the likelihood of recovery with respect to the costs and administrative burden for recovery. A student's information must be confirmed by multiple data matches in order to be P-EBT eligible. Kentucky will pursue P-EBT claims on a case-by-case basis when P-EBT is issued in error. When Kentucky discovers instances where a child's benefits went to the wrong household or child, CHFS will research those cases individually and issue benefits only when the state confirms that its original issuance was made in error. Kentucky will not issue duplicate benefits in cases of disputed guardianship if the state believes the original issuance was correct. Kentucky will report the dollar amount and number of students affected by any over issuances/overpayments to USDA with explanations of the cause(s) for error(s)

prior to making corrections. Further, Kentucky will notify the USDA Regional Office and complete the over-issuance spreadsheet that USDA provided to states last year. Kentucky is committed to preserving P-EBT program integrity through rigorous verification of student eligibility.

10. Benefit Issuance Reporting

The state agrees to complete the FNS-292 form as well as all other normally recurring SNAP reporting, including the FNS 46, 388, and 778 reports, on a timely basis in accordance with requirements.

11. Administrative Funding

A separate grant to cover state level administrative costs associated with the administration of P-EBT will be awarded to the SNAP state agency within each state, for the period of performance October 1, 2022 through September 30 2023. As the authorized grantee, the SNAP state agency will be granted access to the associated letter-of-credit in which the administrative grant funds will be placed. As P-EBT related state administrative costs may be incurred by state agencies other than the SNAP state agency, the SNAP state agency will be responsible for entering into interagency agreements in the form of a Memorandum of Understanding, or document of similar construct, with all other respective state agencies responsible for delivering P-EBT benefits. The SNAP state agency will be responsible for reimbursing the administrative costs of all associated agencies accordingly.

Prior to USDA releasing the grant for administrative funding, each SNAP state agency will be required to submit a P-EBT Budget Plan using the FNS-366(a) Program and Budget Summary Statement. Funds will not be released to the SNAP state agency's letter-of-credit until this plan is submitted and approved. The SNAP state agency's Budget Plan should include the estimated administrative costs for all state agencies that will be handling P-EBT.

As noted in Item 9 above, the SNAP state agency will be also responsible for reporting all administrative expenditures on a separate FNS-778, Supplemental Nutrition Assistance Program, Federal Financial Report designated specifically for P-EBT. The expenditures on the FNS-778 should align with those outlined in the FNS-366(a), Program and Budget Summary Statement. The forms associated with P-EBT will be modified accordingly.

12. Release of Information

Per Section 1101(e) of the Families First Coronavirus Response Act: Notwithstanding any other provision of law, the Secretary of Agriculture may authorize state educational agencies and school food authorities administering a school lunch program under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) to release to appropriate officials administering the supplemental nutrition assistance program such information as may be necessary to carry out this section."

13. Civil Rights Statement

The state will continue to comply with civil rights requirements by not discriminating on the basis of race, color, national origin, sex (including gender identity and sexual orientation),

disability, age, or reprisal or retaliation for prior civil rights activity. The state will also provide meaningful access to its programs and activities for individuals who are limited English proficient, and provide equal access to individuals with disabilities.

14. Administration of State P-EBT Plan

The state will administer P-EBT according to the terms of its approved state plan. If the state wishes to change any of the terms of its plan, the state shall first notify USDA and will, if requested by USDA, submit a plan amendment for USDA review and approval.
