SUBJECT: Pandemic Electronic Benefits Transfer Program (P-EBT)
Approval of New Jersey's State Plan for Children in Child Care,
School Year 2021-2022

TO: Dr. Patty Bennett
Regional Administrator
Mid-Atlantic Regional Office

The Families First Coronavirus Response Act (P.L. 116-127; the Act), as amended, authorized a temporary assistance program for households with certain SNAP-enrolled children in child care during the public health emergency declared on January 27, 2020. Pursuant to the authority granted under Section 1101 of the Act, FNS approves New Jersey's enclosed plan to operate P-EBT for children in child care.

Summary of State's Plan

The New Jersey Department of Human Services' Division of Family Development, and the New Jersey Department of Agriculture's Division of Food and Nutrition will issue P-EBT benefits through the State's Supplemental Nutrition Assistance Program (SNAP) EBT card system to households with eligible children. The State's plan for SNAP-enrolled children in child care covers the months of September 2021 through June 2022.

Children in child care are eligible for benefits if they are enrolled in SNAP and their child care facility is closed or operating with reduced attendance or hours, or if they live in the area of a school that is closed or operating with reduced attendance or hours. The State will use the best feasibly available data and USDA-approved simplifying assumptions to issue benefits in amounts that are tied as closely as possible to the number of days that eligible children do not receive a meal service through their covered child care facility.

At a minimum, the State will identify all children under age 6 who are enrolled in SNAP in the benefit month. The State will not issue child care benefits to any child for months after their SNAP enrollment ends. Finally, the State will ensure that children who receive a benefit through P-EBT's child care component do not also receive a benefit through P-EBT's school component for the same month.

In addition, New Jersey will:

- identify SNAP-enrolled children under age 6,
- for each month from September through March, determine if there has been a statewide reduction in access to child care by comparing Child and Adult Care Food Program (CACFP) lunch claims since the start of SY 2021-2022 to the same months prior to the pandemic,

- issue an average benefit to all eligible children for the months that New Jersey experienced a reduction in child care access:
 - calculate the reduction in CACFP lunch claims using current data compared to the same months prior to the pandemic:
 - use the reduction in claims for September 2021-March 2022 compared to September-December 2019, January-February 2020, and March 2019 to issue benefits for September 2021-June 2022,
 - multiply the calculated reduction by the average number of instructional days for school children in the same months (18 days) and the daily benefit amount to determine the statewide average monthly benefit,
- provide USDA with its tentative average benefit for confirmation prior to issuing benefits,
- confirm that lunch claims, for the most current months in spring 2022 where complete data are available, have not returned to pre-pandemic levels before issuing benefits for those months or subsequent months,
- tentatively issue benefits for the months of September through June on a daily basis corresponding to the applicable month of the school year in late July,
- tentatively issue corrected benefits in September/October.

Finally, the State will identify risks for improper payments and ensure a high level of integrity.

Estimated Caseload and Value of P-EBT Benefits

The State will calculate monthly benefits for each eligible child in the household equal to the daily reimbursement for a free breakfast, lunch, and snack multiplied by the number of benefit days calculated as described in the State's plan.

New Jersey estimates that it will issue \$52.5 million to approximately 125,000 SNAP-enrolled children in child care from September 2021 through June 2022.

Release of Information

Pursuant to Section 1101(e) of the Act, the Secretary hereby authorizes the release of the information necessary to carry out P-EBT in New Jersey. Section 1101(e) of the Act states, "Notwithstanding any other provision of law, the Secretary of Agriculture may authorize State educational agencies and school food authorities administering a school lunch program under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.) to release to appropriate officials administering the supplemental nutrition assistance program such information as may be necessary to carry out this section."

Plan Timetable and Revisions

New Jersey will distribute benefits to households consistent with the timeframes identified in the State plan. Should the State encounter challenges or delays that significantly impair its ability to implement the approved P-EBT plan or require

substantive changes, the State must notify the FNS Regional Office as soon as possible. The FNS Regional Office will work with the State to identify reasonable solutions and review revised plans for approval or further revision.

Civil Rights

New Jersey will continue to comply with civil rights requirements, to include providing equal access to individuals with disabilities and individuals who are limited English proficient.

Administrative Funds

The New Jersey Department of Human Services' Division of Family Development will participate in a P-EBT Administrative Budget Planning process using the FNS-366(a) Program and Budget Summary. When the FNS-366(a) is finalized, that will determine the State's Administrative Grant level. However, the FNS-366(a), Program and Budget Summary, may be updated and revised as the State's operational plan evolves.

Reporting

The New Jersey Department of Human Services' Division of Family Development will complete the FNS-292B, the FNS-46, the FNS-388, and the FNS-778 reports in accordance with existing requirements.

FNS appreciates New Jersey's exceptional efforts to maintain children's access to nutritious meals, and understands that even as the nation recovers from this difficult time, State agencies and local program operators will still face any number of challenges. FNS stands ready to provide additional support as needed. If you have questions, please contact the FNS Mid-Atlantic Regional Office.

Sincerely,

Cindy Long
Administrator
