

New York has extended the parent reconsideration application portal closing date from 8/15/23 to 9/15/23 because the USDA 5/26 guidance extending the date by which states may issue P-EBT benefits, provides NY additional capacity for data clean up and reconsideration application processing. Our EBT vendor has confirmed it can accommodate the updated issuance schedule. New York State's revised PEBT issuance schedule for the 2021-22 school year is included below.

- Automatic payments to children with 5 consecutive absences were issued in May and June 2023. The school year payment included Summer 2022 for children eligible for summer 2022 payment.
- Parent attestation applications –payments will begin going out at the end of June/beginning of July and will continue to be issued through 9/30/23. The parent reconsideration application portal will close 9/15/23.
 - Payments may continue to be issued through 12/31/23 depending on the volume of applications.
- Summer 2022 to children attending non-public schools that only submitted June enrollment data – August 2023
