ACRONYMS

State agencies may consider including acronyms for the SNAP State agency, SNAP E&T program name, State's management information system, and SNAP E&T providers or contractors.

The below list includes common acronyms utilized within this plan.

Acronym	Definition
ABAWD	Able-Bodied Adult without Dependents
E&T	Employment and Training
FNS	Food and Nutrition Service
FY	Fiscal Year
GA	General Assistance
ITO	Indian Tribal Organization
SNAP	Supplemental Nutrition Assistance Program

TANF	Temporary Assistance for Needy Families
USDA	United States Department of Agriculture
WIOA	Workforce Innovation and Opportunity Act

SUMMARY OF PROGRAM

Provide the vision and mission of the State E&T program. In addition, describe how your State agency's E&T program meets the purpose of E&T which is to:

- Increase the ability of SNAP participants to obtain regular employment
- Meet State or local workforce needs

The Basic Food Employment and Training (BFET) program is Washington State's Supplemental Nutrition Assistance Program (SNAP) employment and training program. Washington's Department of Social and Health Services' vision is to partner with people to access support, care, and resources. The program's mission is to assist Basic Food recipients to achieve their full potential by encouraging economic well-being through skill acquisition, education and gainful employment.

The Community Services Division (CSD) within Washington State's Department of Social and Health Services (DSHS) administers the BFET program through contracted services with community-based organizations (CBOs), community and technical colleges, and tribes. BFET plays an important part of Washington State's comprehensive workforce development systems serving the needs of low-income individuals, displaced workers and employers.

BFET contractors deliver services with program guidelines outlined in the Washington Administrative Code (WAC) 338-444-0015 and 388-444-0025, contracts, BFET Providers Handbook, BFET Participant Reimbursement Directory, and the BFET website.

BFET contractors provide services across 39 counties in Washington, including Life Skills, Job Search Training, Supervised Job Search, Basic Education, Vocational Education, Self-Employment Training, Integrated Education and Training and Job Retention Services. Contractors throughout the state include 34 colleges, multiple workforce councils and dozens of community-based organizations.

Is the State's E&T program administered at the State or county level?

PROGRAM CHANGES

Summarize changes for the upcoming Federal fiscal year (FY) from the prior FY. Significant changes may include new initiatives, changes in funding or funding sources, policy changes, or significant changes to the number of partners or participants. Significant changes could include those made as a result of management evaluation findings or participation in program improvement initiatives, such as SNAP to Skills. It is not necessary to include changes made as a result of new Federal rulemaking.

During the FFY25, Washington state has been strategic in building relationships with several local workforce development councils. While the BFET program has worked with WDCs in the past, we expect to add up to 5 additional boards for a total of 8 boards being BFET providers. These potential providers are highly skilled and experienced in creating support networks for participants, leveraging community members for local opportunities.

Washington E&T lost three providers during FFY25 who specifically stated a lack of match funding for their inability to continue with the BFET program. WorkSource Clallam will be combining with another WorkSource location to try to preserve services. This change was made due to a lack of match funding. Clallam is a rural area with limited E&T services.

While not a policy change or provider increase, Washington State E&T is in the process of making several improvements to our case management program eJAS. These changes will decrease duplicative work, increase direct communication between providers and BFET staff regarding client eligibility and decrease barriers to enrollment.

Enhancements to existing support services when related to a BFET activity included: passports if required for employment; general liability insurance required for employment and up to initial three months; vehicle registration or renewal if vehicle in participant name; and auto insurance up to three months at beginning of employment.

Highlight any changes from above that the State agency is making to the E&T program based on the prior year's performance, for instance changes made as a result of E&T outcome and participation data.

Washington State's E&T program will have a full year of referral data within eJAS, our case management system in July 2025. This data will be used as part of Washington State's commitment to continuous improvement.

Working with FNS, Washington State has engaged with our partners to review allowable Participant Reimbursements in SNAP E&T. This included provider and staff surveys, compiling data written and verbal requests. Starting 10/2025, Washington state providers will expand existing options to support participants in their journey to self-sufficiency. In addition, we have adjusted our case management system to allow providers to modify participant reimbursements to allow flexibility and increase accuracy.

BFET holds quarterly provider meetings throughout the year. Provider feedback gathered during these meetings is a valuable resource. It has become a building block for how we identify and structure provider training over the current federal fiscal year and will continue to be into FFY26. Over the summer of 2025, Washington State E&T is holding three separate training sessions on provider requested topics.

CONSULTATION AND COORDINATION WITH THE WORKFORCE DEVELOPMENT SYSTEM

State agencies must design the E&T program in consultation with the State workforce development board and operate the E&T program through the statewide workforce development system (7 CFR 273.7(c)(5)). The goal of this section is to explain the relationship between the State agency and other organizations it plans to consult and coordinate with for the provision of services, including organizations in the statewide workforce development system. The statewide workforce development system refers to a network of providers, which may include government and the public sector; community-based organizations and non-profits; employers and industry; occupational training providers; and post-secondary institutions, such as community colleges. Please note the State workforce development board is an entity that establishes Regional strategic plans and sets funding priorities for their area. They are distinct from State workforce agencies.

Consultation

Consultation with the workforce development system generally includes discussions to learn about services provided in the community and how each organization functions and coordinates with others in the community. State agencies can demonstrate they consulted with their State workforce development board by noting the dates of conversations, who they spoke with, what they spoke about, and how they incorporated this information into the design of their E&T program.

Did the State agency consult the State workforce development board?

☒ Yes

☐ No

Describe how the State agency consulted with the State workforce development board in designing its SNAP E&T program. Include the names, dates and outcomes of the consultation.

Date	State Workforce Development Board Name	Title(s) of Person Consulted	Outcome of Consultation
06/02/2025	Workforce Training Education Board	Manager Data Integration	Discussed sharing and improving data integration. Committee member, and part of committee for the past year.
06/03/2025	Workforce Training Education Board	Executive Director	Discussed collaboration with BFET, working to coordinate with workforce system

Coordination

Coordination with the workforce development system consists of efforts to partner with workforce providers to directly serve SNAP E&T participants or to align the flow or types of services offered across programs.

Describe any special State initiatives (i.e. Governor-initiated or through State legislation) that include SNAP E&T. Describe any efforts taken by the State agency to coordinate these programs, services, partners, and/or activities with the State's E&T program.

Washington state currently collaborates with the three WDC providers with subcontractors. In 2022, the Legislature appropriated state funds for Economic Security for All (EcSA) in proviso, expanding its capacity to deliver comprehensive and coordinated services to the 26% of Washingtonians who live in poverty. EcSA is a poverty reduction model that coordinates existing programs to increase their collective ability to support low-income Washingtonians in their pursuit of equity, dignity and sustained self-sufficiency. A combination of intensive program navigation, local innovation and flexible support fills gaps and meets needs within existing programs and regulations. At the local level, EcSA is run by partnerships of community service providers, includes the voices of those who have experienced poverty, and is convened and coordinated by Local Workforce Development Boards (LWDBs). EcSA takes an innovative approach to equitably reduce poverty, focusing on historically marginalized populations and people with multiple obstacles to self-sufficiency. The EcSA program became a permanent grant program through legislation passed in March 2024. The new legislation identifies and removes barriers included in the original provisos and specifies additional mandates and partnerships for FY25 funding and beyond. Employment Security will operationalize the new elements in collaboration with specified partners.

BFET currently has three WDC BFET providers for FFY25 and is adding three more WDC's as BFET providers for FFY26.

Seattle King WDC, located in downtown Seattle, offers services throughout the King County region. Seattle King WDC covers a diverse population: individuals who are low income, young adults, justice involved individuals, veterans, individuals in substance use recovery, and immigrants. Seattle King WDC assist clients in providing financial support for training, clothing, and other essential work needs. All clients receive a full range of case management and employment services such as but not limited to life skills training, career planning, job search and job retention services.

Southwest Washington WDC, located in the Pacific Cascade region, offers services in Clark, Cowlitz and Wahkiakum counties. Southwest WDC offers EcSA or Thrive supports a long-term, systemic approach to helping the individuals living in economically marginalized areas of SW Washington move out of poverty. Thrive partners collaborate to serve the communities with the highest rates of unemployment and economic marginalization with training and support services to gain employment at 200% above the Federal Poverty Level (FPL). Thrive Subrecipients work collaboratively with community partners to recruit and enroll eligible participants between the ages of 18-64 with household income below 200% FPL living in SW Washington. Thrive holistically helps people to fully engage in a successful training and/or job search that leads to higher wages employment that led to Self-Sufficiency.

Spokane Area WDC serves all of Spokane County. BFET services are provided by subcontractors at the Next Generation Zone including Career Path Services, Goodwill Industries of the Inland Northwest, and North-East Washington Education Services District 101 (NEWESD101). Young adults disconnected from school and the workforce can access High School Equivalency classes and testing, career guidance, and employment experiences. In addition, the 21st Century Skills Academy, provides an 8-day course that provides, teaches life skills and job search training, including assessments, financial literacy, interviewing, résumé writing, and other essential skills for young adults as they enter the workforce.

New Providers

Snohomish WDC Workforce Snohomish (WFS) is a 501(c)(3) nonprofit organization with over 20 years of experience leading innovative, community-centered workforce development in Snohomish County. Founded in 2000, WFS is dedicated to transforming lives, building thriving communities, and fostering economic stability by creating inclusive pathways out of poverty and into meaningful, family-supporting careers. WFS provides job seekers with comprehensive, end-to-end support through an integrated ecosystem of services that

begins with our innovative Workforce Compass platform. This advanced tool identifies transferable skills across industries and helps individuals explore career opportunities based on their existing strengths. Complementing this technology are our dedicated Employment Specialists, who work one-on-one with clients to deliver personalized career planning, skills assessments, and tailored career pathways aligned with individual goals and current labor market demand.

Pac Mountain WDC – Pacific Mountain Workforce Development Council (PacMtn) is a nonprofit organization that serves as the regional Workforce Development Board for Grays Harbor, Lewis, Mason, Pacific, and Thurston Counties in Washington State. As the WIOA Title I-B administrator and One-Stop system convener, PacMtn leads a network of workforce services that are equity-centered, performance-driven, and aligned with regional economic and labor market priorities. Its programs are built on a foundation of equity, partnership, and performance, with intentional coordination across education, social services, community-based organizations, and employers to ensure seamless, customer-centered service delivery. Guided by a commitment to continuous improvement, PacMtn uses data to drive decision making and ensure accountability across the regional workforce system.

Central Pierce WDC serves Tacoma-Pierce County administers, and advance workforce development in our community, bridging the gaps between job seekers, employers, and community organizations to assure that services for residents and businesses are top quality, equitable, accessible, reliable, and aligned to industry needs. currently manages annual Workforce Innovation and Opportunity Act (WIOA) Title I formula grants and funding from federal and state Economic Security for All (EcSA) programs (via the WA Employment Security Department); U.S. Economic Development Administration's Good Jobs Challenge program, and the WA State Community Reinvestment Fund. These funds support career services and training and employment in high-demand and emerging industries, plus supportive services, for individuals facing barriers to self-sufficient employment, including dislocated workers and young adults. Funds also support incumbent worker training; specialized navigation support and grants for minority-owned small businesses; and services that support Pierce County's overall workforce development system, such as the One-Stop Operator at the WorkSource Pierce One-Stop Center and the Pierce County Common Referral System administered by Pierce County 2-1-1. Central Pierce WDC also manages local government contracts, which currently include an American Rescue Plan Act-funded contract with Pierce County for young adult paid internships; a Pierce County grant to pilot behavioral health workforce development and retention strategies; and a Port of Tacoma contract supporting young adult paid internships. Central Pierce WDC intentionally diversified funding streams help to ensure sustained, stable income to meet the ever-changing workforce needs of our community.

BFET has met with members of Washington Workforce Association (WWA) and developed a list of items WDCs, and other providers, that will address communication issues, improve reporting of federal changes set for the by FNS that impact local Workforce Board program delivery. The first item in working with WWA and the State Workforce Board is developing a better flow of communication between the Washington State BFET program, WDCs, and all other program providers.

State representation on State Workforce Development Board with continued collaboration, amid H.R.1 future changes,

Describe the extent to which the State agency is carrying out SNAP E&T programs in coordination with title I programs under the Workforce Innovation and Opportunity Act (WIOA).

BFET activities are structured to be provided in partnership with Title I programs under WIOA. Each program has its own eligibility criteria, which must be met by the participants. Many of the BFET providers are also WIOA service providers, increasing the likelihood of collaboration for the benefit of the participant. WIOA service providers coordinate referrals of BFET clients to WIOA programs. SNAP eligibility is an element of automatic WIOA eligibility. This allows for opportunities to structure and integrate services to provide comprehensive supports to help customers move more effectively through education, training, and employment pathways.

WIOA activities can include life skills, supervised job search, job search training, basic education, vocational education, work-based learning, and support services for job retention and wage progression. Alignment within the partnerships varies in local regions based on the where contractors situated in the respective regions.

Several BFET partners receive WIOA Title 1 funding and could braid those funds and provide additional resources and fill gaps where BFET funds are not available.

BFET initially contracted with a few WDCs in FFY20 and continues working to expand these partnerships.

Additionally, DSHS convenes a cohort of local leadership appointed to each of the 12 WDCs, and BFET programming is a standard agenda item for monthly meetings. BFET administrator attends and provides information, as well as receive information about WIOA related work in local areas.

Is SNAP E&T included as a partner in the State's WIOA Combined Plan?

☒ Yes

☐ No

Describe how the State agency is coordinating with TANF/GA programs, services, partners, and/or activities. Describe any TANF/GA special initiatives targeting specific populations and any actions taken to coordinate with these efforts.

The BFET program coordinates with TANF efforts in a variety of ways. Many of our BFET providers also hold a TANF service contract. These providers create internal agency processes for transitioning participants between programs. This allows transition between program funding streams to be seamless for the participants. TANF applicants receive information on BFET services during the application process. In addition, eligibility staff counsel applicants on how BFET can be another pathway to finding employment and training while not using their limited TANF months. DSHS uses the eJAS to track case management services for both BFET and TANF participants. The eJAS system helps BFET providers determine if clients are SNAP E&T eligible. Using the same system for both TANF and BFET allows providers to keep working with the same client and see the history of participation. Both TANF and BFET providers participate in regional and local planning area (LPA) meetings. LPAs provide an opportunity for community providers to understand program services, provider updates, current challenges and upcoming initiatives.

These meetings create space to intentionally collaborate. LPA membership consist of:

- Community Service Offices (local DSHS staff)
- Department of Commerce
- State Board of Community and Technical Colleges
- Employment Security Department's WorkSource staff
- BFET contractors
- Other community partners

Describe how the State agency is coordinating its SNAP E&T program with any other Federal or State employment program (e.g. HUD, child support, re-entry, refugee services).

The BFET program coordinates with several other programs, which include:

- Division of Vocational Rehabilitation - Provides employment and counseling services to individuals with disabilities that want to work but have a few barriers.

- Division of Child Support - Offers employment and training services through their statewide initiative, Alternative Solutions Program. This program helps parents find resources to help support their economic wellbeing. Participants who enroll in the Alternative Solutions work with a case worker to develop an action plan.
- Office of Refugee and Immigrant Assistance - Offers employment services and English language training to adult participants with the Limited English Proficiency (LEP) program. This program mirrors the BFET program, however, focuses on employment and training services to refugees and immigrants.
- Department of Corrections - Several BFET providers focus on re-entry services. Many work in collaboration with this department to help with transitioning from correction related to community programs.

CONSULTATION WITH INDIAN TRIBAL ORGANIZATIONS (ITOs)

State agencies are required to consult with Tribes about the SNAP State Plan of Operations, which includes the E&T State Plan, per 7 CFR 272.2(b) and 272.2(e)(7). The consultations must pertain to the unique needs of Tribal members. State agencies are required to document the availability of E&T programs for Tribal members living on reservations in accordance with 7 CFR 273.7(c)(6)(xiii). The goal of this section is to describe how the State agency consulted with Indian Tribal Organizations (ITOs), describe the results of the consultation, and document the availability of E&T programs for Tribal members living on reservations.

Did the State agency consult with ITOs in the State?

- ☒ Yes
- ☐ Yes, but not all ITOs
- ☐ No
- ☐ There are no ITOs in my State

List the ITOs consulted and describe the outcomes of the consultation(s). Provide specific examples of how the State agency incorporated feedback from ITOs into the design of the E&T program (e.g. unique supportive service, new component, in-demand occupation). Include the title of the person you consulted and the date.

Date	Name of ITO	Title(s) of Person Consulted	Outcome of Consultation
12/19/2024	Northwest Indian College (NWIC)	Basic Food Employment & Training (BFET) Coordinator and Grants Managers	Multiple meetings include: 2/27/25; 3/11/25 and 6/10/25. Outcomes of each meeting are NWIC continues to provide quality innovative BFET services to strengthen their program and services to eligible students across six counties to include the Lummi, Muckleshoot, Nisqually, Port Gamble and Tulalip Tribes. The BFET program supports NWIC by conducting quarterly meetings. These meetings are conducted by our Fiscal Managers, assigned Program Manager and our entire policy and operations teams to ensure NWIC is fully supported in successful operations of their program.
10/01/2025	Annual meetings with 29 Federally Recognized Tribes	Tribal staff identified by individual tribes	DSHS shared BFET program information at each annual 7.01 tribal meeting, that includea an opportunity to become a BFET contractor; and BFET services available to tribal

UTILIZATION OF STATE OPTIONS

State agencies have the flexibility to implement policy options to adapt and meet the unique needs of State populations. Check which options the State agency will implement.

Does the State agency offer an E&T program statewide?

☒ Yes

☐ No

Indicate the type of E&T program the State agency operates.

☐ Mandatory per 7 CFR 273.7(e)

☒ Voluntary per 7 CFR 273.7(e)(5)(i)

☐ Combination of mandatory and voluntary

Does the State agency serve the following populations? Select all that apply.

☐ Applicants per 7 CFR 273.7(e)(2)

☐ Exempt members of zero benefit households that volunteer for SNAP E&T per 7 CFR 273.10(e)(2)(iii)(B)(7)

☒ Categorically eligible households per 7 CFR 273.2(j)

Does the State agency enable ABAWDs to regain SNAP eligibility through E&T and verify that the ABAWD will meet the work requirement within 30 days?

☐ Yes

☒ No

CHARACTERISTICS OF INDIVIDUALS SERVED BY E&T

State agencies are required to include information about the categories and types of individuals they plan to exempt from mandatory E&T participation (7 CFR 273.7 (c)(6)(iv)), as well as the characteristics of the population they plan to place in E&T (7 CFR 273.7 (c)(6)(v)).

What are the characteristics of the population the State agency intends to serve in E&T (e.g. target population)?
This question applies to both mandatory and voluntary participants.

- ☐ ABAWDs
- ☐ Homeless
- ☐ Veterans
- ☐ Students
- ☐ Single parents
- ☐ Returning citizens (aka: ex-offenders)
- ☐ Underemployed
- ☐ Those that reside in rural areas
- ☐ Persons with disabilities
- ☐ Persons with mental health challenges
- ☐ Long-term unemployed
- ☐ Survivors of domestic violence
- ☐ Persons with substance abuse disorders
- ☐ Members of a tribe
- ☐ Youth
- ☐ Aged
- ☐ Deaf
- ☐ Blind
- ☐ Deaf & blind
- ☐ Foster youth
- ☐ Runaways
- ☐ Persons with basic skill deficiencies
- ☐ Pregnant/Parenting
- ☐ Persons on unemployment compensation
- ☐ Displaced homemakers

☒ ALICE -asset limited, income constrained

Estimated Participant Levels

Project participation in E&T for the upcoming Federal fiscal year. In determining the estimated participation, it is important to be as accurate as possible. As appropriate, projections should be based upon actual figures from the current Federal fiscal year.

QUESTION	RESPONSE FIELD
Anticipated number of work registrants	272,657

State Exemptions

List State exemptions from E&T and the participation, such as individuals to be exempted under each category.

QUESTION	RESPONSE FIELD
Anticipated number of ABAWDs in the State	49,683
Anticipated number of ABAWDs in waived areas of the State	43,868
Anticipated number of ABAWDs to be exempted under the State's ABAWD discretionary exemption allowance	240
Anticipated number of ABAWDs in the State who meet the criteria under 7 CFR 273.7(d)(3)(i)	5,575

E&T Participants

QUESTION	RESPONSE FIELD
Anticipated number of mandatory E&T participants	0
Anticipated number of voluntary E&T participants	15,683
Total anticipated number of E&T participants	15,683
Anticipated number of ABAWDs to be served in E&T	2,400

How frequently will the State plan to re-evaluate these exemptions from mandatory E&T?

- ☐ Annually
- ☐ Bi-annually
- ☒ Other

Explain how frequently the State plans to re-evaluate these exemptions from mandatory E&T.

When the state legislature makes a change that would affect our status as a voluntary state.

ORGANIZATIONAL RELATIONSHIPS

State agencies are required to include information on the organizational relationship between the units responsible for certification and the units operating the E&T components, including units of the statewide workforce development system, if available. For the purposes of the questions below, E&T providers are considered to include units of the statewide workforce development system. FNS is specifically interested in ensuring that the lines of communication are efficient and that, if applicable, noncompliance with mandatory E&T is reported to the certification unit within 10 working days after the noncompliance occurs, per 7 CFR 273.7(c)(4). State agencies must also include information on the relationship between the State agency and other organizations it plans to coordinate with for the provision of services.

The following questions are about how the E&T program is structured in your State agency.

Indicate which division within the SNAP State agency is responsible for the E&T program. (i.e. establishes E&T policy, contracts for E&T services, monitors providers). For example, explain if the E&T program unit is separate from the SNAP certification unit, and if there are separate E&T units at the county level.

CSD administers SNAP E&T, known as Basic Food Employment and Training (BFET). CSD also administers SNAP certification, however, there is a specific BFET unit that oversees the SNAP E&T program statewide. The BFET team operates as policy and operational functionalities and are responsible for contracting, monitoring, and automation systems training, as well as additional support from our contracts team to ensure contracts are legally and technically sufficient. Office of Refugee & Immigrant Assistance (ORIA) administers a BFET program and Division of Finance and Financial Resources (DFFR) oversees accounting on all BFET grant management. The BFET team is also responsible for policy and procedure development for the program including, though not limited to, creating and managing WAC, internal staff trainings and procedures, as well as maintaining external materials for providers.

How does the E&T unit coordinate and communicate on an ongoing basis with the units responsible for certification policy?

The BFET Administrator is in frequent contact with the SNAP (Food) Policy Leadership as part of normal business team meetings. SNAP policy changes and clarifications are subject to workgroups or collaboration from each team. CSD also uses a variety of methods to keep all staff up to date with changes, including but not limited to, all-staff emails, memos, announcements on SharePoint, biweekly policy calls, manual updates, website updates, and multiple policy-related committees.

Describe the State's relationships and communication with intermediaries or E&T providers.

DSHS has ongoing communication in fostering relationship to include incorporating feedback. The communication methods between DSHS and BFET partners are the electronic Jobs Administration System (eJAS), meetings, email and via telephone communication. BFET program staff regularly attend annual 7.01 tribal meetings. The Washington State workforce development system is also a collaborative partnership. Many BFET providers and DSHS BFET staff convene in Local Planning Area meetings. BFET activities are structured to be provided in partnership with Title I programs under WIOA BFET contracted WDCs and continues working to expand these partnerships.

Describe how the State agency shares new policies, procedures, or other information with the intermediary or other E&T provider.

New policies and procedures are communicated in multiple ways to BFET providers, which include:

- 1:1 Partner meetings
- Emails/Phone calls
- Policy memos
- Quarterly meetings
- Community meetings –presentations
- Stakeholder communication from Director
- BFET Trainings and/or Forum opportunities
- Contracts
- BFET Provider Handbook
- ABAWD Public website
- DSHS Social Media

Describe how the State agency, intermediaries, and E&T providers share participant data and information. Include the names of any MIS systems (or other modes of communication) used.

The primary data share method between DSHS and BFET partners is the electronic Jobs Administration System (eJAS). This system includes information on participant demographics, component activities, and estimated hours of participation, to include case notes about progress. Office of Refugee Immigrants Administration (ORIA), Temporary Assistance for Needy Families (TANF) and other programs including BFET, are using eJAS with a human centered approach and are able to see a participant's individual journey and past participation.

If the State uses a MIS system, describe the E&T related data that is tracked and stored in those systems (e.g. referrals, noncompliance with program requirements, provider determination, etc.), and whether the system(s) interact with each other.

eJAS tracks BFET participant's active and historic components with all providers, estimated participation hours, reimbursements, and case notes to capture progress. BFET has created a function in eJAS to track referrals made by the state to providers and includes tracking provider determinations and provider capacity.

Describe the State agency's process for monitoring E&T providers' program and fiscal operations. Include plans for direct monitoring such as visits, as well as indirect monitoring such as reviewing program data, financial invoices, etc.

Washington State monitors Providers fiscal operations with monthly review of invoices and annual monitoring. Providers have fiscal monitoring annually. Program reviews are completed monthly through auditing of case notes, component usage and case management. Contractually obligated performance standards are reviewed with providers quarterly. Providers have monitoring at least once every three years. Those with findings in the previous years' monitoring, is monitored the following year.

How frequently does the State agency monitor E&T providers' program and fiscal operations?

- ☒ Daily
- ☐ Weekly
- ☐ Monthly
- ☐ Quarterly
- ☐ Bi-Annually
- ☐ Annually
- ☐ Other

Describe how the State agency evaluates the performance of providers in achieving the purpose of E&T (assisting members of SNAP households in gaining skills, training, work, or experience that will increase their ability to obtain regular employment and meets State or local workforce needs).

Washington State monitors the performance of our providers in a number of ways:

- Case notes audits – The BFET team reviews a percentage of each provider's caseload monthly to ensure the required number and quality of case notes are provided. Both providers and program managers receive this feedback.
- Enrollment numbers – Exhibit C of the BFET contract lists the provider's expected quarterly enrollment. Program managers track enrollments and check in with providers throughout the year to make sure they are on track. If needed, a contract amendment may be implemented.
- Component Closure Reasons – Tracking activity trends with completed "successfully" versus closing due to "loss of contact" or "incomplete".
- Employment data – Providers enter participant employment information in eJAS. Program managers pull reports to track this against the Exhibit C expected performance.
- BFET Referral reports – The BFET Team reviews and maintains a referral system in eJAS. Data is analyzed for improvements in engagement with potential participants.

CSD also tracks BFET program performance by using Unemployment Insurance Wage Data provided by ESD. This data provides participant employment and illustrates career trajectory, showing employment engagement three quarters following a participant's exit from BFET. Although this data has a three-quarter delay, it provides accurate long-term data.

SCREENING FOR WORK REGISTRATION

State agency eligibility staff must screen for federal exemptions from work registration, per 7 CFR 273.7(a).

Describe how the State agency screens applicants to determine if they are work registrants.

During SNAP eligibility application and review interviews, Work Registration is screened via our Automated Client Eligibility System (ACES) on the Work Registration page. State eligibility workers must use all the information they have gathered over the course of the interview (student status, employment history, disabilities, etc.) to make work registration decisions. State eligibility workers then enter in the work registration status for the client on this page. The eligibility program will assist, suggesting specific codes if certain parameters in the case are met, such as when the client is a student or if they have a disability, State eligibility workers use the Work Registration desk aid to assist them in making a determination.

How does the State agency work register non-exempt individuals?

Eligibility staff complete the work registrant status field in ACES with the appropriate work registration indicator based on the information provided during the interview and application, or eligibility review forms. This process completes the registration for the nonexempt individual.

At what point in the certification process does the State agency provide the written explanation of the applicable work requirements? Select all that apply.

- ☒ Point of Intake
- ☒ Point of Certification
- ☒ Reported change in the work registrant status of household members
- ☒ Point of Recertification
- ☐ State does not provide written explanation

At what point in the certification process does the State agency provide the oral explanation of the applicable work requirements? Select all that apply.

SCREENING FOR REFERRAL TO E&T

The State agency must screen each work registrant to determine if it is appropriate, based on State-specific criteria, to refer them to the E&T program per 7 CFR 273.7 (c)(2). State agencies may operate program components in which individuals elect to participate, per 7 CFR 273.7(e)(4).

List the State-specific criteria eligibility workers use to screen individuals to determine if it is appropriate to refer them to the State's SNAP E&T program.

Washington State eligibility workers ask five screening questions for SNAP recipients in the Barcode system:

1. Are you currently seeking employment or want help finding a job?
2. Would you be able to work at least 20 hours per week?
3. Are you interested in any education or training?
4. Are you interested in getting a high school diploma, high school equivalency or English as a second language (ESL) Classes?
5. Are you interested in getting a degree, or certification or other specialized training to increase your employability?

Each answer to the questions goes into a decision tree within eJAS to correlate with specific activities.

For example, a yes response to question four would correlate to providers who have vocational education, basic education or LEP activities.

What information does the State provide to a SNAP recipient to explain SNAP E&T participation criteria?

The State informs SNAP recipients that Washington SNAP E&T is a voluntary program which provides opportunities for training and education with support services available depending on provider resources.

How does the State document that the information has been provided?

This is documented in our electronic case record program Barcode.

Describe the process for screening for direct referral to E&T, including the staff involved.

Eligibility staff ask the client screening questions at application and recertification when the head of household is present either on the phone or in person. This information is entered into ACES.

When does the screening for a reverse referral request occur?

Reverse referrals are reviewed weekly by eligibility staff.

Describe the process for screening during the reverse referral request process, including the staff involved.

BFET allows reverse referrals in the way of BFET providers assessing walk-in clients. In the case of any SNAP recipient, the client may request services from a BFET provider. The BFET provider then screens the client for appropriateness for participation in the BFET program and verifies eligibility for BFET via eJAS, prior to enrollment into program. DSHS runs a BFET auto-enrollment report weekly and cross-matched clients with DSHS BFET referrals. DSHS Eligibility staff reviews the BFET provider enrollments for appropriateness and documents DSHS approval. Washington State considers the client a participant during the time between when the provider verifies eligibility for BFET via eJAS and when DSHS Eligibility staff review the enrollments for appropriateness.

Providers are required to complete an orientation process with clients that includes determining their suitability for SNAP E&T. With client permission, the provider can use the client's client ID or Social Security Number to look up the SNAP E&T eligibility in eJAS. The provider will receive a message regarding the client's eligibility for SNAP E&T. Below are samples of the messages:

- Client eligibility for SNAP E&T, in the eJAS case management system. The provider receives information about the client such as: Client is eligible.
- Client is open on TANF and therefore not eligible.
- Client is not eligible.
- Other error codes that the provider may need to reach out to our agency staff to identify if the client is eligible.

If the client is eligible and would like to proceed the provider moves forward with electronic enrollment. Once enrollment is created in eJAS, eligibility workers can view the client's status in BFET, as needed. No further action is taken by state eligibility workers unless there is a change in status.

For students, this process may be slightly different as the client will not appear to be "active" and "eligible" in eJAS for providers to enroll clients into BFET. DSHS has a form, Referral to DSHS

for Basic Food Employment and Training (BFET) (DSHS form 10-501), BFET colleges use to let DSHS know that if the client is open on SNAP they will be enrolled into the colleges BFET program, therefore meeting SNAP Student Eligibility rules. Eligibility workers use these forms to update clients' student status.

In addition, we are pulling reports of clients who have been enrolled in BFET without a screening/referral. State eligibility workers will review the case notes from the BFET provider to ensure referral was appropriate and document in the case notes that the referral was approved.

Are participants informed about participant reimbursements before the individual is referred to E&T by eligibility staff?

☒ Yes

☐ No

How are participants informed about participant reimbursements?

At application and review, state eligibility workers will use a standard oral script to explain the services offered to work registrants through the BFET program including available participant reimbursements. The requirement for BFET providers to discuss the types of participant reimbursements available at their agencies will remain a standard part of the orientation process. Once enrolled the provider and participant discuss the individuals' needs and reimbursement options available. BFET providers determine what participant reimbursements they will provide as part of the contracting process annually.

REFERRAL TO E&T

In accordance with 7 CFR 273.7(c)(2), in order to participate in SNAP E&T, the State agency must make the referral. The referral method may vary from participant to participant.

If the State receives a reverse referral request from an E&T provider, what steps does the State take?

BFET allows reverse referrals in the way of BFET providers assessing walk-in clients. In the case of any SNAP recipient, the client may request services from a BFET provider. The BFET provider then screens the client for appropriateness for participation in the BFET program and verifies eligibility for BFET via eJAS, prior to enrollment into program. Weekly, DSHS runs a BFET auto-enrollment report of the previous month and crossmatches clients with DSHS BFET referrals. DSHS Eligibility staff reviews the BFET provider enrollments for appropriateness and documents DSHS approval. Washington State considers the client a participant during the time between when the provider verifies eligibility for BFET via eJAS and when DSHS Eligibility staff review the enrollments for appropriateness.

After receiving a reverse referral, a Washington State eligibility worker reviews the client's case to ensure they are eligible for SNAP E&T. In addition, the eligibility worker reviews the provider's notes in eJAS to ensure that the referral to that specific provider is appropriate.

If eligibility and the referral are approved, the eligibility worker puts notes into eJAS to document this approval. If the eligibility or referral are not approved, the eligibility worker communicates with the State E&T staff, who then work with the provider to add information into eJAS if needed, or to have the participant

closed if ineligible.

It is rare that a reverse referral client is not eligible as the automated eligibility link available in eJAS displays messages regarding eligibility at the time of enrollment. Below are samples of the message:

- Client eligibility for SNAP E&T, in the eJAS case management system. The provider receives information about the client such as: Client is eligible.
- Client is open on TANF and therefore not eligible.
- Client is not eligible.
- Other error codes that the provider may need to reach out to our agency staff to identify if the client is eligible.

For students, this process may be slightly different as the client may not appear to be “active” and “eligible” in eJAS for providers to enroll clients into BFET. DSHS has a form, Referral to DSHS for Basic Food Employment and Training (BFET) (DSHS form 10-501), BFET colleges use to let DSHS know that if the client is open on SNAP they will be enrolled into the colleges BFET program, therefore meeting SNAP Student Eligibility rules. Eligibility workers use these forms to update clients’ student status.

How is information about the referral communicated to E&T providers, as applicable?

The providers receive electronic referrals in real time through eJAS on their caseload management screen.

How is information about the referral communicated within the State agency?

A rejected referral shows on the provider's rejected referral report, which is checked daily to ensure clients are offered a referral to another provider as needed. If another referral is needed, or would benefit the client, an alert is sent to the eligibility workers asking for them to re-refer the client to another provider, or activity. These alerts are expected to be worked within 10 days.

When are participants assessed?

When BFET providers receive referrals through eJAS or self-referred clients each BFET provider must conduct an assessment of the participant. This is required to ensure the BFET program is a good fit for the client. The intake and assessment must be completed before assigning (or enrolling) an individual into a BFET activity component.

Describe the assessment. List the tools used in the assessment.

The assessment includes, at a minimum:

- Basic skill levels
- Aptitude
- Interests
- Employment history

Participants are reassessed annually, or as needed, when changes occur in Individual Employment Plans.

CONCILIATION PROCESS

In accordance with 7 CFR 273.7(c)(3), State agencies have the option to offer a conciliation period to noncompliant E&T participants. The conciliation period provides mandatory E&T participants with an opportunity to comply before the State agency sends a notice of adverse action. The conciliation process is not a substitute for the determination of good cause when a client fails to comply.

CASE MANAGEMENT SERVICES

The State E&T program must provide case management services to all E&T participants. In accordance with 7 CFR 273.7(c)(6)(ii), State agencies are required to include specific information about the provision of case management services in the E&T State plan.

Describe how E&T case managers coordinate with other staff and services. Coordination can involve tracking E&T participation, sharing information that may be relevant to participation in E&T (e.g. information related to good cause or a work exemption), and referral to additional services.

QUESTION	RESPONSE FIELD
How do E&T case managers coordinate with: SNAP eligibility staff	State eligibility staff create a referral in eJAS to BFET providers that meet the criteria the client is looking for based on screening questions during the referral process. There is no direct communication between state eligibility workers and BFET providers. If the provider cannot serve the client, they will complete a provider determination in eJAS, back to state workers who will follow up with the client for another referral opportunity, as needed. Once the client is enrolled, State eligibility staff can review client progress in eJAS.
How do E&T case managers coordinate with: State E&T staff	WA state BFET program managers and consultants do not provide case management to eligible BFET clients. We ensure our contracted BFET provider's document participant pathway to include case management in eJAS. For clients that are co-enrolled in the Employment Pipeline program and BFET, the state worker will work together with the provider to ensure the client is progressing.
How do E&T case managers coordinate with: Other E&T providers	Other DSHS programs use the eJAS system, such as TANF, and ORIA programs. We encourage our providers to attend Local Planning Area meetings (LPA's) or to develop their own area community meetings. LPA's consist of government and local entities that offer E&T opportunities.
How do E&T case managers coordinate with: Community resources	State and local E&T staff are encouraged to attend SNAP Outreach and SNAP Education gatherings to foster networking support .

How does the State agency ensure E&T participants receive targeted case management services through an efficient administrative process, per 7 CFR 273.7(c)(6)(ii)?

All BFET contracts include a statement of work, which reflects case management requirements. In addition, the BFET Provider Handbook indicates case management obligations. Washington also monitors client case notes through monthly random audits and individual provider monitoring of the program once a year to ensure case management practices are implemented.

How do your offered case management services support the participant in the E&T program and provide activities and resources that help the participant achieve program goals?

- Case Management is an important part of BFET services and required to accompany each component.
- Case management involves assessing participants' skills, interests, strengths, and challenges and using this information to develop an individualized plan for addressing barriers, obtaining skills, and gaining employment.
- This also includes ongoing assessment, adjustment, and continued barrier removal throughout participation in BFET.

How does the SNAP State agency ensure the case management services offered do not act as an impediment to successful participation in E&T?

The participant's progress must be monitored and documented in eJAS monthly. Expected documentation includes the following:

- o Progress in component activity
 - o Changes in the IEP
 - o Changes in activity(s)
 - o Participant Reimbursement to include a brief description and amount.
 - o Supervised Job Search logs information including, verification of monthly job search contacts or activities completed, and steps taken to obtain when not received monthly.
 - o If participant requests childcare services, follow the instructions in the Guide for Writing Client Notes
- Use the monthly progress radio button in eJAS on the caseload screen to track cases documented.

GOOD CAUSE

In accordance with 7 CFR 273.7(i), the State agency is responsible for determining good cause when a SNAP recipient fails or refuses to comply with SNAP work requirements. Since it is not possible for FNS to enumerate each individual situation that should or should not be considered good cause, the State agency must take into account the facts and circumstances, including information submitted by the employer and by the household member involved, in determining whether or not good cause exists.

How many attempts are made to reach out to the SNAP participant for additional information?

- ☐ One
- ☐ Two
- ☐ Three
- ☒ More than three

What is the State agency's criteria for good cause?

Washington follows WAC 388-444-0050 criteria regarding good cause. For work registrants:

Good cause reasons include, but are not limited to:

- (a) You were injured or ill;
- (b) A household member who needs your help was injured or ill;
- (c) A household emergency;
- (d) The unavailability of transportation; or
- (e) Lack of adequate dependent care for children six through twelve years of age.

State eligibility workers consider an ABAWD to have met the work requirement if they have a temporary absence from work that causes them to not meet the required hours of participation and they have not lost their job.

• Good cause includes unexpected circumstances beyond the individual's control, such as:

- a. Illness;
- b. Care for another household member;
- c. A household emergency; or
- d. The unavailability of transportation.

2. Good cause should not exceed two months in a row. If the frequency of good cause requests become questionable, a state eligibility worker can ask the client to provide collateral contact for the exemption. Assess the client for a personal exemption if it appears that the good cause reason will last for longer than two months.

3. If there is no good cause, staff record non-qualifying month.

Describe the State agency's process to determine good cause if there is not an appropriate and available opening for an E&T participant.

Not applicable.

PROVIDER DETERMINATIONS

In accordance with 7 CFR 273.7(c)(18) a State agency must ensure that E&T providers are informed of their authority and responsibility to determine if an individual is ill-suited for a particular E&T component.

Describe the process used by E&T providers to communicate provider determinations to the State agency.

The communication process will start when the provider receives the electronic referral, sent to providers (electronically) through the eJAS system. The providers have seven days to accept or reject a referral. If they accept the referral, they will enroll the client in BFET. Once an agency determines the client is not a good fit, they complete a Provider Determination electronically and instantaneously sent back to DSHS the day it is completed. Eligibility staff will review the Provider Determination for next steps within ten days of receiving it. The reason codes for a Provider Determination are:

- Provider could not get in contact with the client.
- Provider cannot meet the client's needs: (text box describing what the client needs).
- Provider does not have capacity.
- Client withdrew the referral.
- Client is not able to participate timely (text box describing why the client is not able to participate).

Describe how the State agency notifies clients of a provider determination.

Within 10 days of receiving the provider determination a letter will be mailed to the client explaining why there is a Provider Determination of not a good fit and will be given information on other provider options, or that based on the information provided their work registrant status will be updated, and they will be temporarily exempt due to barriers or that they are exempt as there are no services available in their area.

What is the timeframe for contacting clients after receiving a provider determination?

- ☐ 1-3 Days
- ☐ 4-7 Days
- ☒ 8-10 Days

DISQUALIFICATION POLICY FOR GENERAL WORK REQUIREMENTS

This section applies to the General Work Requirements, not just to E&T, and should be completed by all States, regardless of whether they operate a mandatory or voluntary E&T program.

All work registrants are subject to SNAP work requirements at 7 CFR 273.7(a). A nonexempt individual who refuses or fails to comply without good cause, as defined at 7 CFR 273.7(2), (3), and (4), with SNAP work requirements will be disqualified and subject to State disqualification periods. Noncompliance with SNAP work requirements includes voluntarily quitting a job or reducing work hours below 30 hours a month, and failing to comply with SNAP E&T (if assigned by the State agency).

What period before application does the State agency use to determine voluntary quit and/or reduction in work effort without good cause per 7 CFR 273.7(j)(1)?

☒ 30 Days

☐ 60 Days

For all occurrences of non-compliance discussed below, must the individual also comply to receive benefits again?

☒ Yes

☐ No

For the first occurrence of non-compliance per 7 CFR 273.7(f)(2), the individual will be disqualified until the later of:

☒ One month or until the individual complies, as determined by the State agency

☐ Up to 3 months

For the second occurrence of non-compliance per 7 CFR 273.7(f)(2)(ii), the individual will be disqualified until the later of:

☒ Three months or until the individual complies, as determined by the State agency

☐ Up to 6 months

For the third or subsequent occurrence per 7 CFR 273.7(f)(2)(iii), the individual will be disqualified until the later of:

- ☒ 6 months or until the individual complies, as determined by the State agency
- ☐ A date determined by the State agency
- ☐ Permanently

The State agency will disqualify the:

- ☒ Individual
- ☐ The entire household if the head of household is an ineligible individual

PARTICIPANT REIMBURSEMENTS

In accordance with 7 CFR 273.7(d)(4), State agencies are required to pay for or reimburse participants for expenses that are reasonable, necessary, and directly related to participation in E&T. State agencies may impose a maximum limit for reimbursement payments. If a State agency serves mandatory E&T participants, it must meet all costs associated with mandatory participation. If an individual's expenses exceed those reimbursements available by the State agency, the individual must be placed into a suitable component or must be exempted from mandatory E&T.

PARTICIPANT REIMBURSEMENT DETAILS

Complete the table below with information on each participant reimbursement offered/permitted by the State agency (do not indicate information for each provider). A description of each category is included below. If the participant reimbursement is provided by multiple entities (such as State agencies and E&T providers) or has multiple methods of payment, a separate entry in the table must be completed.

- **Allowable Participant Reimbursements.** Every State agency must include child care and transportation in this table, as well as other major categories of reimbursements (examples of categories include, but are not limited to: tools, test fees, books, uniforms, license fees, electronic devices, etc.). Mandatory States must meet all costs associated with participating in an E&T program, or else they must exempt individuals from E&T.
- **Participant Reimbursement Caps (optional).** States have the option to establish maximum levels (caps) for reimbursements available to individuals. Indicate any caps on the amount the State agency will provide for the participant reimbursement.
- **Who provides the participant reimbursements?** Indicate if the participant reimbursement is provided by the State agency, a provider, or an intermediary. The State agency remains ultimately responsible for ensuring individuals receive participant reimbursements, even if it has contracted with another entity to provide them.
- **What is the payment method for Participant Reimbursements?** Indicate the mechanism used to disburse payment to E&T participants.
- **Method of disbursement.** Indicate if the participant receives the participant reimbursement in advance or as a reimbursement. Also indicate if the amount of the participant reimbursement is an estimated amount or the actual amount.

How is childcare paid for?

- ☒ Direct payment to provider
- ☐ Reimbursement to participants
- ☐ Provider voucher
- ☐ Contract for dependent care
- ☐ Other

If dependent care agencies have a waiting list or otherwise cap the number of enrolled dependents, how will the State agency ensure E&T participants with dependent care needs receive dependent care?

There is no waitlist or Cap for Washington State Department of Children, Youth and Families Child Care services. In some instances, when a participant is deemed ineligible there are other groups that may pay for child care, such as King County or the City of Seattle.

How does the State agency ensure that the participant has the necessary participant reimbursements to begin participation in the E&T program?

The requirement for BFET providers discussing the types of participant reimbursements available at their agencies will remain a standard part of the BFET program requirements. Once enrolled, the provider and participant discusses the individual needs and participant reimbursement available. BFET providers determine what participant reimbursements they will provide as part of the contracting process annually.

WORK REGISTRANT DATA

The SNAP general work requirements are described at 7 CFR 273.7(a). Individuals who do not meet a federal exemption from the general work requirements, as listed in 7 CFR 273.7(b)(1), are subject to the general work requirement and must register for work. In accordance with 7 CFR 273.7(c)(10), the State agency must submit to FNS the number of work registrants in the State as of October 1st. This information is submitted on the first quarter E&T Program Activity Report (FNS-583).

Describe the process the State agency uses to count all work registrants in the State as of the first day of the new fiscal year (October 1).

EMAPS data warehouse runs a report to pull active SNAP clients who are coded as Work Registrants on the first day of the new fiscal year unduplicated by their client id number.

Provide information about how work registrant data is pulled from the eligibility system, including the date the data is pulled.

The report is run annually and pulls active SNAP clients who are Work Registrants with no exempt reasons from the ACES eligibility system.

How are work registrants identified in the eligibility system?

Work Registrants are coded 'WR' and ABAWDs as 'AB' in our eligibility system. The report pulls clients who have WR and AB coding with no federal exemptions coded.

Describe measures taken to prevent duplicate counting of work registrants within the federal fiscal year.

The eligibility system uses unique client identification numbers to identify each client. The report only pulls unduplicated client identification numbers for each Work Registrant.

NON-EDUCATION, NON-WORK COMPONENT: JOB RETENTION

Description of the component. Provide a summary of the activities and services.

Job Retention Service is an activity designed to help employed participants achieve satisfactory job performance, retain employment, and increase wages over time. In order to qualify, the participant must have secured new employment or received a promotion or increase due to new or additional responsibilities while participating in BFET services. An increase of hours the participant is employed does not qualify the participant or Job Retention Services. Job Retention Services is used when the participant's Basic Food Assistance closes or when the employed participant chooses not to participate in other BFET activities beyond the new employment.

Participants engage in the following activities while participating in Job Retention Services: group or individual counseling; coaching and mentoring; case management services including acting as an employer of record liaison for participant employment problem solving, conflict mediation, barrier removal and referral to other services as needed; participant reimbursement assistance for costs such as childcare, transportation, clothing and personal hygiene items.

Successful completion of the activity is tracked in our EJAS system via the closure code "Completed Satisfactorily" that is entered by the BFET provider when the participant completes this component.

NON-EDUCATION, NON-WORK COMPONENT: SUPERVISED JOB SEARCH

Provide a summary of the State guidelines implementing supervised job search.

Supervised Job Search activities are captured using the BK component in eJAS and must provide structured activities that help participants look for and find jobs. Case managers must review and follow up all job search logs monthly with participants. All job search activity verification must include date, type, and result of contact. Supervised Job Search activities may include:

- Use of computer, email, fax, telephone
- Search of job listings and
- Securing identification, professional license, or certifications

Successful completion of the activity is tracked in our eJAS system via the closure code 'Completed Satisfactorily' that is entered by the BFET Provider when they complete this component.

Supervised Job Search requires participants to search for employment by making at least three employer contacts weekly and submitting their job search activities monthly as verification. Supervised Job Search verification may be noted in eJAS within the activity month capturing the date, type, and result of contact to be considered as participant's job search activity. Participants must take any steps necessary to apply for a position for the contact to count as a job search activity.

Employer Contact is any engagement with an employer regarding a job posting. This means the participant can have multiple "employer contacts" for the same employer, for example: telephone, online or in-person contact. This may also include securing documents needed to secure and maintain employment.

The BK component may be opened for a maximum of 90 days at a time with the ability to update on expiration.

Describe the direct path to employment.

The participant's Individual Employment Plan identifies activities, and BFET providers assess a participant's progress to determine timing of each activity, including barrier reduction and ability to participate. The eJAS system allows only 90 days at a time in SJS activity. This hard edit of 90-days provides an opportunity for the BFET case manager to assess participant's progress in the SJS activity and determine if other services could be needed based on the current progress or if there are any gaps or barriers to address. The BFET team regularly discusses the use of components and documentation requirements with providers. In addition, components are reviewed at the annual contract monitoring.

WORK EXPERIENCE COMPONENT: INTERNSHIP

Description of the component. Provide a summary of the activities and services.

Planned, structured learning experiences that take place in a workplace for a limited period of time; a program to provide practical experience for beginners in an occupation or profession. BFET providers work with worksite agencies in the development of the training objectives and program goals that would lead to employment. Each Provider and worksite agency completed the following steps:

- Local high wage/high demand jobs to determine the work based learning positions. SWBL trainings in high demand jobs such as manufacturing, barista, customer service skills, culinary, IT and healthcare fields.
- Training plans are developed between the worksite agency and BFET provider based off the workforce needs of the employers in those areas.
- Each provider will provide an orientation with each participant to ensure they understand the impact of WBL wages on BFA benefits, review new employee packet, and any requirement for employment by that worksite agency.
- Each provider will complete and review a Work Base Learning Participant Agreement and update the Individual Employment Plan with each client.
- Each worksite agency will complete a monthly evaluation and engage in monthly worksite supervisor contact for feedback and case management opportunities.

Employment is the goal and all non-subsidized and subsidized WBL positions supported by BFET must be career targeted and lead to permanent employment.

FUNDING SOURCES

Fields for the Funding Sources section will populate from other sections, such as the Operating Budget section or annual allocations decided by FNS OET.

The system will provide the States 100 percent allocation as well as the target for the total 50/50 funds, as provided in the annual E&T final allocation memo.

State agencies may enter funds into the field "100 Percent Federal Grant - Additional Funds" for planning purposes. This field must be blank before initial submission. State agencies that wish to request additional 100% funds can do so via the Funding Requests tab. If the request is approved, State agencies will see the approved amount populated in this field, and a new State Plan Amendment must be submitted.

The system utilizes a formula that distributes administrative costs to the various funding sources (i.e. 100 percent Federal, 50 percent Federal Admin and 50 percent Non-Federal Admin.) The formula also establishes a funding hierarchy for the use of all available 100 percent Federal funds. This funding hierarchy will assign the planned administrative expenses against the regular 100 Federal grant first, then depending upon availability, against additional 100 percent funds, able-bodied adults without dependents (ABAWD) pledge funds, if applicable. Any planned costs over the available 100 percent funds will be evenly distributed against the 50 percent Admin funds.

The planned expenses shown for the field "100% Federal Grant" will be inclusive of the formula allocation, as well as any additional Federal funds approved. Fields in the column "Distribution of Planned Expenses" are populated from the planned expenses table. States can use this table to extrapolate figures, but cannot submit the form until 100% of Federal additional funds under the "Allocation or Target" column has been removed.

PLEDGE TO SERVE ALL ABAWDS

The Act authorizes FNS to allocate \$20 million annually to State agencies that commit, or pledge, to ensuring the availability of education, training, or workfare opportunities that permit able-bodied adults without dependents (ABAWDs) to remain eligible beyond the 3-month time limit.

To be eligible for these additional funds (pledge funds), State agencies must pledge to offer and provide an opportunity in a work program that meets the participation requirements of 7 CFR 273.24 to every applicant and recipient who is in the last month of the 3-month time limit and not otherwise exempt. Individuals are exempt from the time limit if they meet an exception under 7 CFR 273.24(c), reside in an area covered by a waiver in accordance with 7 CFR 273.24(f), or who are exempted by the State under 7 CFR 273.24(g).

Is the State agency pledging to offer qualifying activities to all ABAWDs subject to the criteria under 7 CFR 273.7(d)(3)(i)?
