INTRODUCTION

This Supplemental Nutrition Assistance Program (SNAP) Quality Control (QC) Annual Report presents official quality control error rates and other statistical data derived from SNAP QC reviews conducted for Fiscal Year (FY) 2007.

Each State agency conducts monthly QC reviews of a statistical sample of households participating in the SNAP (active cases) and households for which participation was denied or terminated (negative cases). These reviews measure the validity of SNAP cases at a given time. The reported State dollar and case error rates are based on these reviews. The State reviews also provide information on the error cause and characteristics of the household.

Additionally, Federal reviews of each State's sample are conducted annually to validate each State agency's error rate. The official active and negative error rates listed in this report are based upon the Federal validation reviews of the State agency samples.

In a program that provided \$30.3 billion in benefits in FY 2007 to needy Americans, more than half of whom are children and the elderly, efficient and effective program administration is essential.

Local agencies certify households for SNAP benefits and, along with the State agencies, are directly responsible for operating the SNAP. While the Food and Nutrition Service (FNS) can assist States through a variety of methods, the States themselves must ultimately make the commitment to conduct accurate and efficient program operations. FNS remains committed to supporting the ongoing efforts of States to increase the accuracy of SNAP certification actions.

To help support these efforts, FNS has undertaken special initiatives designed to increase payment accuracy. Activities in FY 2007 included: 1) continued funding for State Exchange activity; 2) FNS national and

regional payment accuracy conferences; 3) technical assistance to States; and 4) National and regional publications publicizing successful payment strategies implemented across the country.

FY 2007 was another year of excellent performance in payment accuracy in the SNAP. The payment error rate in the SNAP for FY 2007 is 5.64 percent. This is lower than last year's FY 2006 rate of 5.99 percent and exceeds the historical low FY 2005 rate of 5.84 percent.

The SNAP negative error rate for FY 2007 is 10.94 percent. The FY 2006 negative error rate is 8.02 percent. While this is a significant increase, FY 2007 marks a year in which FNS took steps to improve the quality and consistency of negative QC reviews. To that end, revised review policies were issued that required closer adherence to the regulatory framework for negative reviews and an increased emphasis on certain procedural errors. Measuring the impact of complying with these procedural errors reflects in part an increased emphasis in improving customer service, one of FNS' overarching goals.

In addition to efforts to increase the accuracy of SNAP certification actions, FNS is also continuing to make improvements to the SNAP to ensure that it is responsive and effective in its support of those individuals and families who rely on its benefits. This includes making the SNAP more visible and accessible to needy individuals and working families.

Further information on the SNAP may be obtained at the SNAP website at www.fns.usda.gov/snap. Specific information on the QC process is found in the FNS 310 Handbook, the Supplemental Nutrition Assistance Program Quality Control Review Handbook. Additional information may also be obtained by contacting the Quality Control Branch at 703-305-2460.

REPORT ORGANIZATION

PART I

Part I presents official quality control (QC) error rates as well as reported dollar and case error rates. With the passage of the Hunger Prevention Act of 1988, the payment error rate became the sum of the overpayment and underpayment error rates. Therefore, in this report we use the term "payment error rate" to reference the sum of the overpayment and underpayment error rates.

PART II

Part II provides information on variances. A variance occurs in a case when information verified by the QC reviewer differs from information used at the time of the most recent certification action, when policy has been misapplied for individual elements of eligibility or when the basis of issuance is incorrect. Not all variances result in a case being cited for a dollar error.

Only variances occurring in dollar error cases are included in this report. For Tables 19, 20, and 21 we assume that the first variance coded is the primary variance. All error amounts are assigned to this variance. All variances (primary and otherwise) cited for a particular case are included in the remaining Tables.

PART III

Part III provides data on the distribution of monthly benefit dollars and overpayment error dollars for selected household characteristics for each State and on a National basis. This information can be used to identify error prone household characteristics by comparing the percent of allotments to the percent of error dollars.

PART IV

Part IV provides information on State sampling parameters of the active and negative universes. For active cases we have also included completion rates and standard errors for the reported and regressed payment error rates.

HIGHLIGHTS

Active Cases. The following statistics compare the performance measure for active cases for FY 2003 through FY 2007:

		<u>FY 2003</u>	<u>FY 2004</u>	<u>FY 2005</u>	<u>FY 2006</u>	<u>FY 2007</u>
<u>National-average official overpayment error rate</u> a/ :		5.04%	4.48%	4.53%	4.82%	4.58%
<u>National-average official underpayment error rate</u> :		1.59%	1.41%	1.31%	1.17%	1.06%
<u>National-average official payment error rate (standard error = approximately 0.14%)</u> b/ :		6.63%	5.88%	5.84%	5.99%	5.64%
<u>Number of States with an official payment error rate under 6%</u> :		21	28	32	25	28
<u>Number of States with an official payment error rate over 10%</u> :		7	2	0	0	1

Negative cases. The following compares the performance measures for reported negative cases for FY 2003 through FY 2007:

		<u>FY 2003</u>	<u>FY 2004</u>	<u>FY 2005</u>	<u>FY 2006</u>	<u>FY 2007</u>
<u>National-average negative case error rate</u> c/ :		7.64%	6.52%	6.91%	8.02%	10.94%

a/ National weighted average for active cases is calculated by weighting each State's error rate by its actual issuance.

b/ The official payment error rate may not equal the sum of the underpayment and overpayment error rates due to rounding.

c/ Validated national weighted average is calculated by weighting each State's error rate by its actual caseload.

PART I: QUALITY CONTROL DATA

Part I presents official quality control (QC) error rates as well as reported dollar and case error rates. With the passage of the Hunger Prevention Act of 1988, the payment error rate became the sum of the overpayment and underpayment error rates. Therefore, in this report we use the term “payment error rate” to reference the sum of the overpayment and underpayment error rates.

Liability Amounts for Fiscal Year 2007

Under the amended Food Stamp Act, a liability shall be established whenever, for 2 consecutive years, there is a 95 percent statistical probability that a State's payment error rate exceeds 105 percent of the national performance average.

In FY 2007, three States' error rates exceeded the liability level for the second consecutive year and liabilities totaling an aggregate of \$4.43 million were established against those States. The Department's settlement offer to these States was 50 percent designated as at-risk for repayment if the same probability exists again in FY 2008; and 50 percent was designated for new investment activities. In addition to these three states, five additional States exceeded the liability level for the first year. These eight States are potentially liable in FY 2008 should their performance again exceed the liability level.

The FY 2007 States assessed liabilities and that had a 95 percent statistical probability of their payment error rate exceeding 105 percent of the national performance average are:

Assessed a Liability:

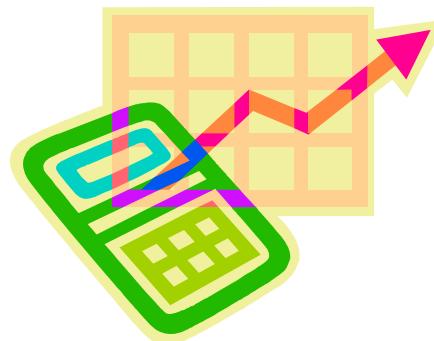

District of Columbia	\$	243,245
Maine	\$	774,441
Michigan	\$	3,419,074

Exceeded First Year Liability Level:

Delaware Georgia New Mexico
Ohio West Virginia

Poorly performing States are not held liable for all errors. Penalties are assessed for only that portion of the error rate that is above 6 percent.

To calculate the liability, take the value of all allotments issued by the State agency in the fiscal year, times the difference between 6 percent and the State's payment error rate, times 10 percent.

Performance Bonuses for Fiscal Year 2007

A total of \$48 million in performance bonuses is shared among high performing States in the following categories:

- Best and Most Improved Payment Error Rate (\$24 million shared)
- Best and Most Improved Negative Error Rate (\$6 million shared)
- Participant Access Rate (\$12 million shared)
- Timeliness of Application Processing (\$6 million shared)

The amount each State receives within a specific category is prorated based on caseload. The Payment and Negative Error Rate Bonuses are awarded based on QC findings covered by this annual report.

The FY 2007 awardees for the Payment Error Rate and Negative Error Rate bonuses are:

For Best Payment Error Rate:

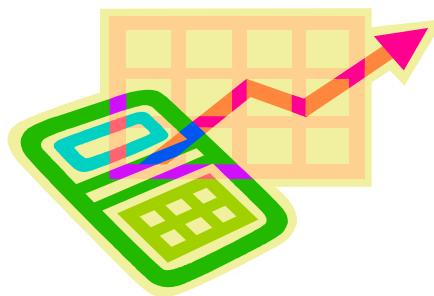

South Dakota	\$ 312,145	Nebraska	\$ 479,050
Nebraska	\$ 544,319	South Dakota	\$ 280,981
North Carolina	\$ 3,451,068	Alabama	\$ 1,715,161
Missouri	\$ 2,682,498	Minnesota	\$ 1,063,350
Mississippi	\$ 1,632,119		
Pennsylvania	\$ 4,664,234		
Washington	\$ 2,436,247		

For Best Negative Error Rate:

For Most Improved Payment Error Rate:

Florida	\$ 5,481,910	Oregon	\$ 1,755,504
Arizona	\$ 2,005,164	Kansas	\$ 705,954
Kansas	\$ 810,296		

For Most Improved Negative Error Rate:

Official State Payment Error Rates FY 2007

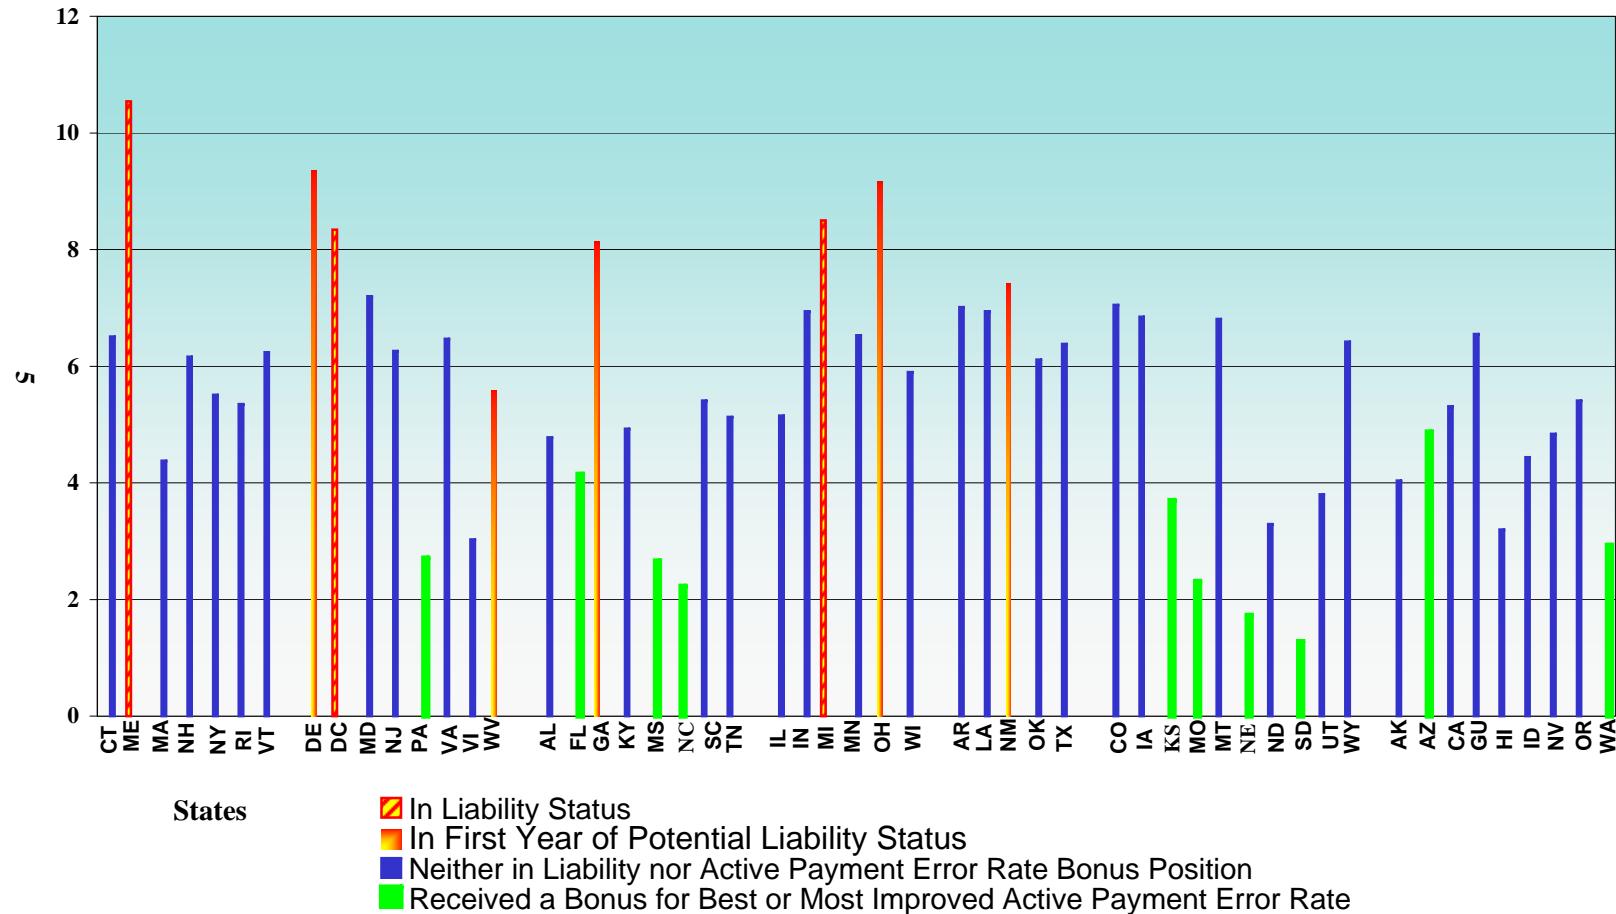

TABLE 1: SUMMARY OF U.S. QUALITY CONTROL FINDINGS FOR FY 06 AND FY 07

	FY 2006	FY 2007
<u>ACTIVE CASES:</u>		
Completed Sample Reviews - State	46,968	48,583
Completed Sample Reviews - Federal	19,110	19,378
Average Monthly Caseload	10,978,090	11,270,180
Estimated Monthly Allotments	2,264,828,838	2,386,323,238
Average Allotment Per Case	\$206	\$212
<u>REPORTED CASE ERROR RATES a/</u>		
Underpayment	2.91%	2.75%
Overpayment b/	7.74%	7.40%
Combined	10.64%	10.15%
<u>OFFICIAL ERROR RATES c/</u>		
Underpayment	1.17%	1.06%
Overpayment b/	4.82%	4.58%
Payment Rate (Combined)	5.99%	5.64%
<u>NEGATIVE CASES:</u>		
Average Monthly Caseload	652,889	666,339
Completed Case Reviews	34,232	33,407
Validated Negative Error Rate	8.02%	10.94%

a/ U.S. case error rates are weighted by State caseloads.

b/ Overpayments include both overpayments to eligible and payments to ineligibles. The reported data for Louisiana for FY 06 is based on 9 months of sample data.

c/ U.S. official error rates are weighted by States' actual issuance data. Fiscal year 2006 official rates for Louisiana were assigned due to Hurricane Katrina.

Washington	3.25	3.87
U.S. Average	8.75	10.94

PART II: VARIANCES

Part II provides information on variances. A variance occurs in a case when information verified by the QC reviewer differs from information used at the time of the most recent certification action, when policy has been misapplied for individual elements of eligibility or the basis of issuance is incorrect. Not all variances result in a case being cited for a dollar error.

Only variances occurring in dollar error cases are included in this report. For Tables 19, 20, and 21 we assume that the first variance coded is the primary variance. All error amounts are assigned to this variance. All variances (primary and otherwise) cited for a particular case are included in the remaining Tables.

VARIANCES

What is a variance?

Variances occur when information verified by the QC reviewer differs from information used at the time of the most recent certification action or when policy has been misapplied for individual elements of eligibility or the basis of issuance is incorrect. Not all variances result in a case being cited for a dollar error.

What variances are included in this report?

Only variances occurring in dollar error cases are included in this report. For all variance tables, other than Tables 19, 20, and 21, all variances cited in the case are included. For Tables 19, 20, and 21 we assume that the first variance coded is the primary variance. All error amounts are assigned to this variance.

What are the Program factors referred to in Tables 11 through 13?

NON-FINANCIAL ELIGIBILITY refers to non-financial factors considered in determining a household's eligibility. These include Age & Student Status, Citizenship & Non-Citizenship, Residency, Household Composition, Work Requirements, and Social Security Number.

INCOME refers to a household's Earned (Wages & Salaries, Self-employment, etc.) or Unearned Income (Veterans Benefits, Unemployment Compensation, Worker's Compensation, and Other Government Programs (PA, RSDI, SSI, etc.))

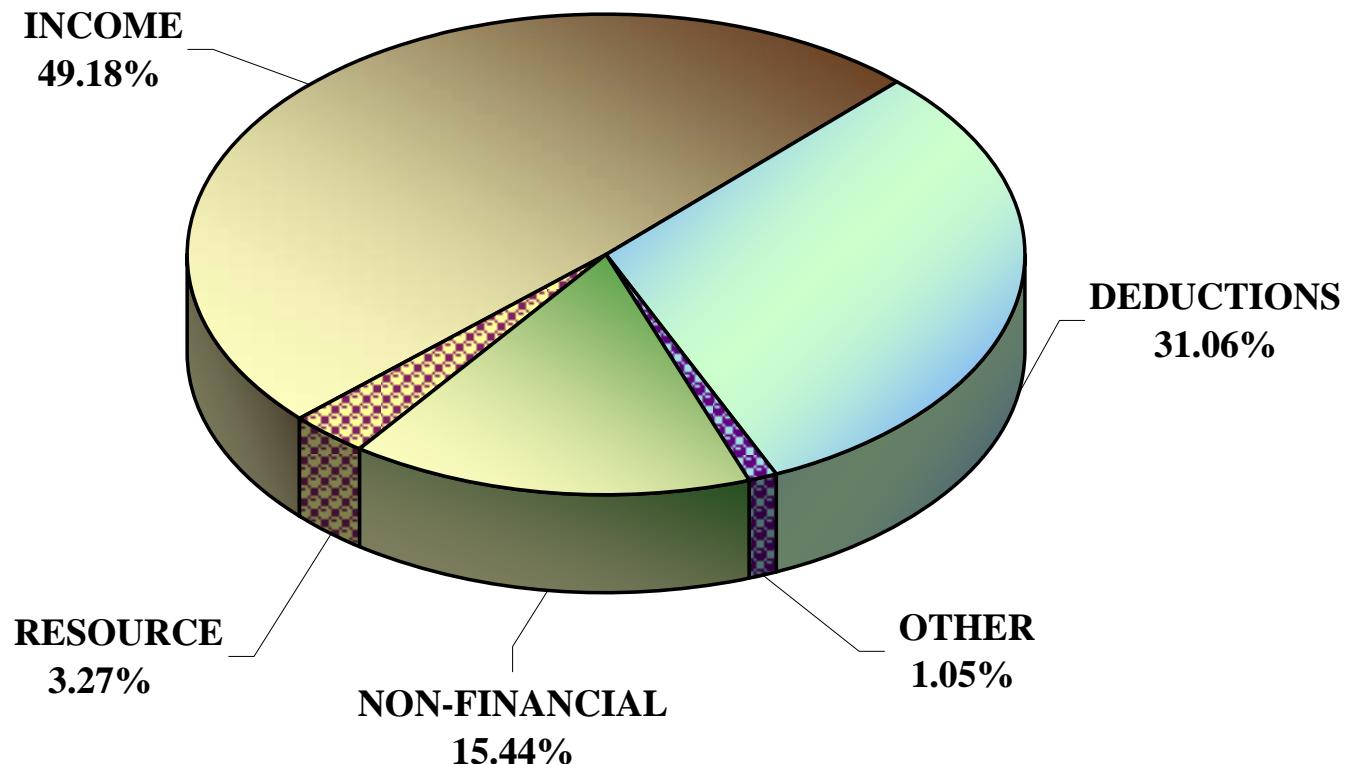

OTHER refers to variances occurring in areas such as Arithmetic Computation, Monthly Reporting, FS Simplification Project, and Demonstration Projects.

DEDUCTIONS refer to the allowed deductions from a household's gross income. These include the Earned Income, Dependent Care, Standard Shelter, Medical and Child Support Payment deductions.

RESOURCES refer to a household's liquid or non-liquid assets. These include Bank Accounts or Cash on Hand, Nonrecurring Lump Sum Payments, Personal Property, Real Property, and Vehicles, etc.

For additional information, please refer to *The Supplemental Nutrition Assistance Program Quality Control Review Handbook FNS-310*.

a/ Agency/Client dollar errors are determined by allotting all errors to the first variance coded.

Source of Error Dollars FY 2007

OVERPAYMENTS

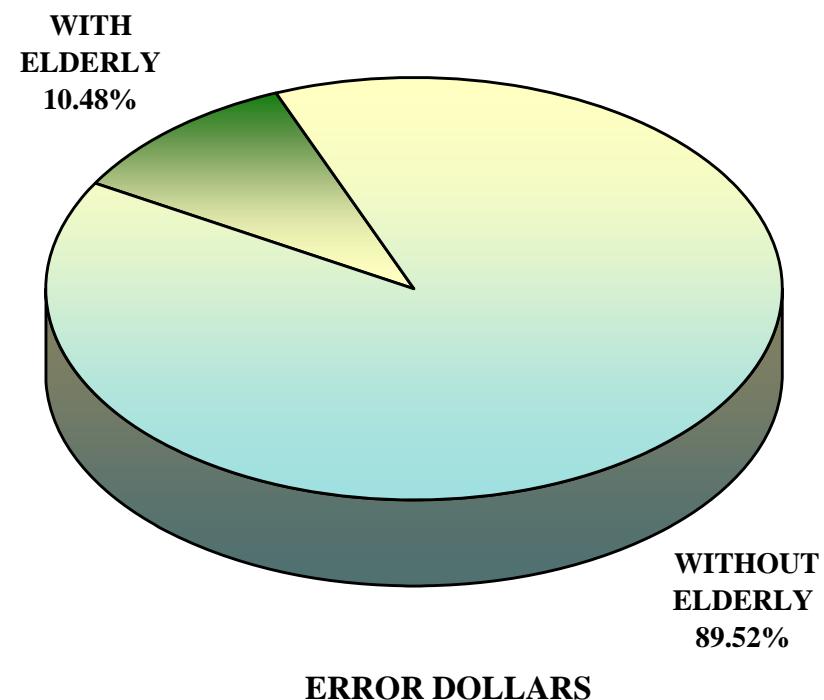

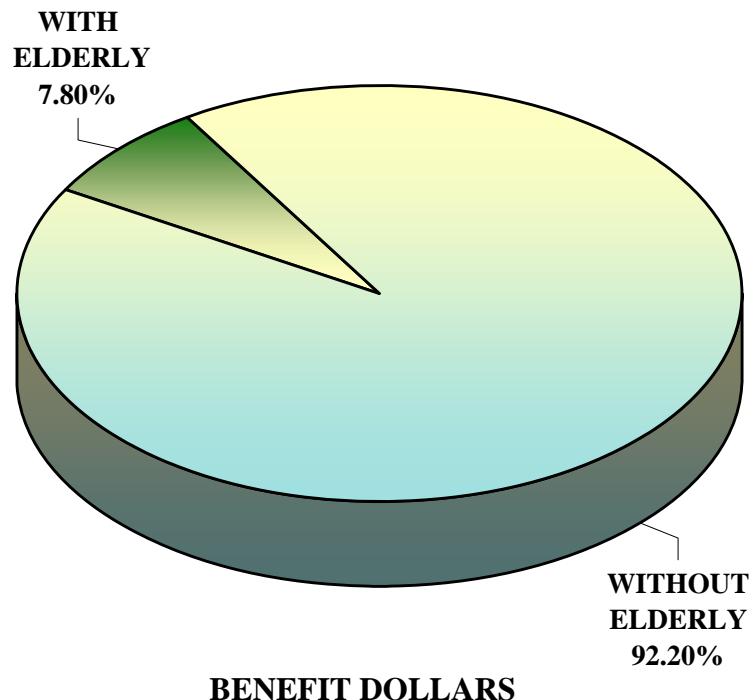

UNDERPAYMENTS

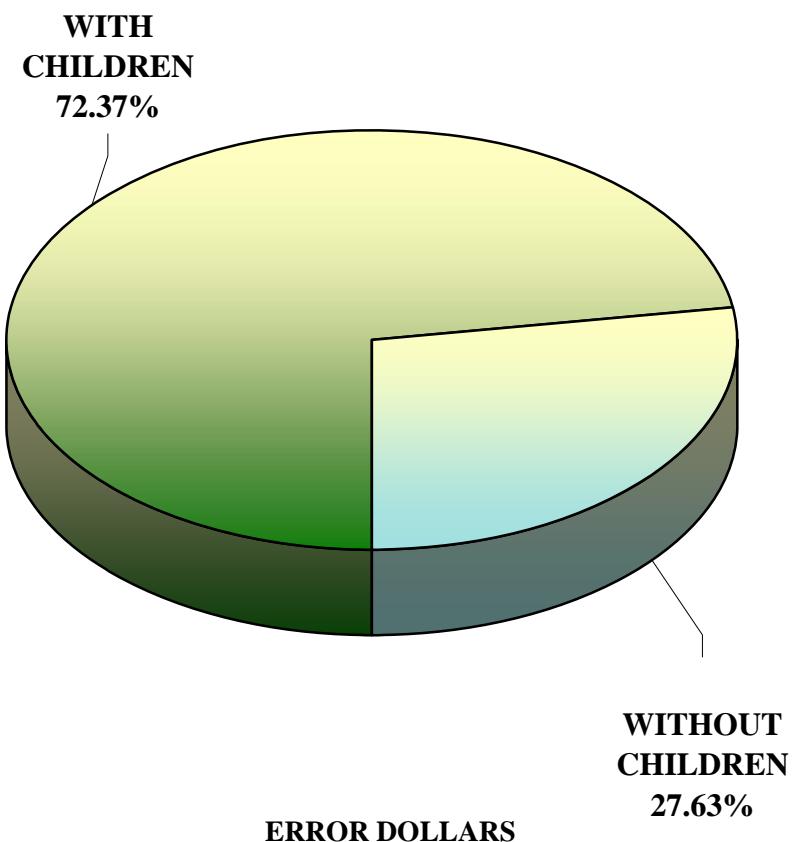

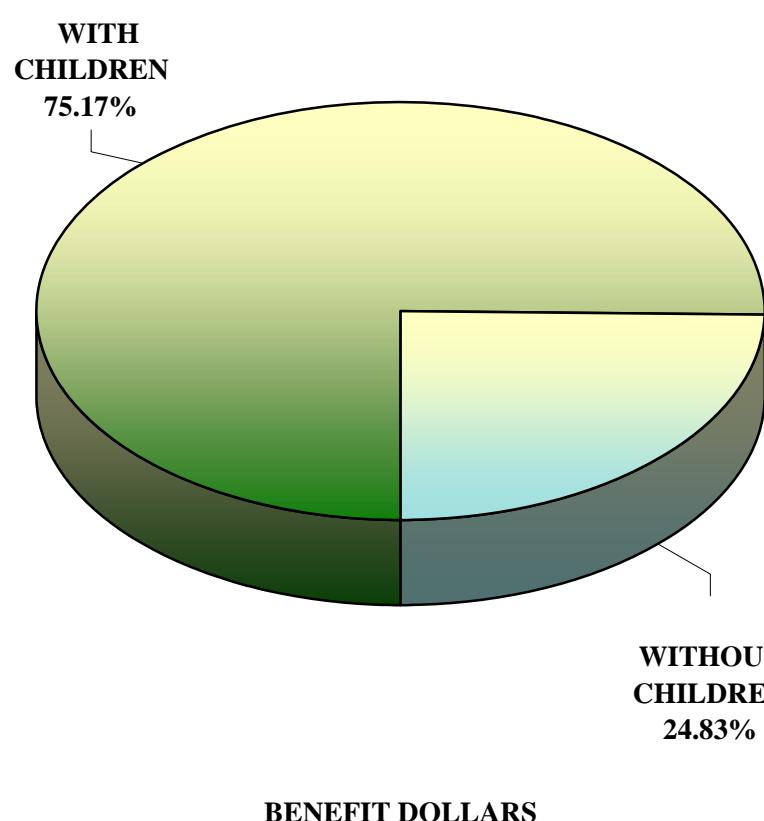

PART III: COMPARISON OF BENEFIT AND OVERPAYMENT ERROR DOLLARS BY HOUSEHOLD CHARACTERISTICS

Part III provides data on the distribution of monthly benefit dollars and overpayment error dollars for selected household characteristics for each State and on a National basis. This information can be used to identify error prone household characteristics by comparing the percent of allotments to the percent of error dollars.

**Households with Elderly Member(s)
Distribution of U.S. Benefit and Error Dollars
FY 2007**

**Households with Children
Distribution of U.S. Benefit and Error Dollars
FY 2007**

a/ Completed cases are only those cases coded class 1.

b/ Completion rates for stratified States are weighted with stratum caseloads.

c/ The U.S. completion rate is weighted by State average monthly caseload.

a/ The listed standard errors can be used in conjunction with the FY- 07 error rates to calculate confidence intervals for the combined payment error rate. The 95% lower confidence limit is 1.96 standard errors less than the corresponding value, the upper 95% confidence limit is 1.96 standard errors greater than the value.
